This notice sets out a summary of the use and burden associated with the following information collections. More

detailed information can be found in each collection's supporting statement and associated materials (see **ADDRESSES**).

CMS-10575 Generic Clearance for the Health Care Payment Learning and Action Network

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. *Type of Information Collection Request:* New collection (Request for a new OMB control number); *Title of Information Collection:* Generic Clearance for the Health Care Payment Learning and Action Network; *Use:* The Center for Medicare and Medicaid Services (CMS), through the Center for Medicare and Medicaid Innovation, develops and tests innovative new payment and service delivery models in accordance with the requirements of section 1115A and in consideration of the opportunities and factors set forth in section 1115A(b)(2) of the Act. To date, CMS has built a portfolio of 26 models (in operation or already announced) that have attracted participation from a broad array of health care providers, states, payers, and other stakeholders. During the development of models, CMS builds on ideas received from stakeholders—consulting with clinical and analytical experts, as well as with representatives of relevant federal and state agencies.

On January 26, 2015, Secretary Burwell announced the ambitious goal to have 30% of Medicare Fee-For-Service payments tied to alternative payment models (such as Pioneer ACOs or bundled payment arrangements) by the end of 2016, and 50% of payments by the end of 2018. To reach this goal, CMS will continue to partner with stakeholders across the health care system to catalyze transformation

through the use of alternative payment models. To this end, CMS launched the Health Care Payment Learning and Action Network, an effort to accelerate the transition to alternative payment models, identify best practices in their implementation, collaborate with payers, providers, consumers, purchasers, and other stakeholders, and monitor the adoption of value-based alternative payment models across the health care system. A system wide transition to alternative payment models will strengthen the ability of CMS to implement existing models and design new models that improve quality and decrease costs for CMS beneficiaries.

The information collected from LAN participants will be used by the CMS Innovation Center to potentially inform the design, selection, testing, modification, and expansion of innovative payment and service delivery models in accordance with the requirements of section 1115A, while monitoring progress towards the Secretary's goal to increase the percentage of payments tied to alternative payment models across the U.S. health care system. In addition, the requested information will be made publically available so that LAN participants (payers, providers, consumers, employers, state agencies, and patients) can use the information to inform decision making and better understand market dynamics in relation to alternative payment models. *Form Number:* CMS-10575 (OMB control number: 0938-NEW); *Frequency:* Occasionally; *Affected Public:* Individuals; Private Sector (Business or other For-profit and Not-for-profit institutions), State, Local and Tribal Governments; *Number of Respondents:* 9,570; *Total Annual Responses:* 20,280; *Total Annual Hours:* 49,432. (For policy questions regarding this collection contact Dustin Allison at 410-786-8830)

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, AoA has submitted the following proposed collection of information to OMB for review and clearance.

States provide the following data and narrative information in the report:

1. Numbers and descriptions of cases filed and complaints made on behalf of long-term care facility residents to the statewide ombudsman program;
2. Major issues identified impacting on the quality of care and life of long-term care facility residents;
3. Statewide program operations; and
4. Ombudsman activities in addition to complaint investigation.

Both the complaint and program data

collected assist the states and local ombudsman programs in planning strategies and activities, providing training and technical assistance and developing performance measures.
