

Form Numbers: None.

Respondents/affected entities:

Polyvinyl chloride and copolymer production area source facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart DDDDDDD).

Estimated number of respondents: 3 (total).

Frequency of response: Initially, semiannually and annually.

Total estimated burden: 69,200 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$7,770,000 (per year), includes \$806,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the estimated burden as currently identified in the OMB Inventory of Approved Burdens. In consulting with the Vinyl Institute during the renewal of this ICR, EPA received comprehensive comments on the burden associated with specific reporting and recordkeeping requirements, including, but not limited to, performance test, monitor installation, resin and wastewater sampling, equipment leak and process vent monitoring. We have updated the burden items to more accurately reflect the costs incurred by the industry. The update results in a substantial increase in the respondent labor hours, labor costs, and capital/O&M costs. There is also a small increase in the number of responses as we have updated the number of subject area sources from two to three based on data provided by the Vinyl Institute.

Courtney Kerwin,

Acting Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2014-0098; FRL-9929-18-OEI]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHP for Nine Metal Fabrication and Finishing Sources (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), "NESHP for Nine Metal Fabrication and Finishing

Sources (40 CFR part 63, subpart XXXXXX) (Renewal)" (EPA ICR No. 2298.04, OMB Control No. 2060-0622), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through June 30, 2015. Public comments were previously requested via the **Federal Register** (79 FR 30117) on May 27, 2014 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before July 30, 2015.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2014-0098, to: (1) EPA online using www.regulations.gov (our preferred method), by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's

public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The regulation applies to nine metal fabrication and finishing area source categories: (1) Electrical and Electronic Equipment Finishing Operations; (2) Fabricated Metal Products; (3) Fabricated Plate Work (Boiler Shops); (4) Fabricated Structural Metal Manufacturing; (5) Heating Equipment, except Electric; (6) Industrial Machinery and Equipment Finishing Operations; (7) Iron and Steel Forging; (8) Primary Metal Products Manufacturing; and (9) Valves and Pipe Fittings. The final rule establishes emission standards in the form of management practices and equipment standards for new and existing operations of dry abrasive blasting, machining, dry grinding and dry polishing with machines, spray painting and other spray coating, and welding operations. These standards reflect EPA's determination regarding the generally achievable control technology and/or management practices for the nine area source categories.

Form Numbers: None.

Respondents/affected entities:

Owners and operators of facilities in the nine metal fabrication and finishing source categories.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart XXXXXX).

Estimated number of respondents: 5,800 (total).

Frequency of response: Initially, occasionally and annually.

Total estimated burden: 35,700 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$3,600,000 (per year), which includes \$0 for both annualized capital and operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the estimated burden as currently identified in the OMB Inventory of Approved Burdens. The previous ICR incorrectly carried over burdens and costs from initial activities and divided the total number of respondents by three. This ICR is corrected to reflect the annual, on-going burden and costs for existing facilities. In addition, the use of more updated labor rates results in an increase in total labor costs. The overall result is an increase in burden hours and costs.

Courtney Kerwin,

Acting Director, Collection Strategies Division.
