

Abstract: This is a request for extension of a currently approved collection for the disclosure and record-keeping requirements codified at 42 CFR part 50, subpart B (“Sterilization of Persons in Federally Assisted Family Planning Projects”). The consent form solicits information to assure voluntary and informed consent to persons undergoing sterilization in programs of health services which are supported by federal financial assistance administered by the Public Health Service (PHS). Consent forms are signed

by individuals undergoing a federally funded sterilization procedure and certified by necessary medical authorities. Forms are incorporated into the patient’s medical records and the agency’s records. Through periodic site audits and visits, PHS staff review completed consent forms to determine compliance with the regulation. Thus, the purpose of the consent form is twofold. First, it serves as a mechanism to ensure that a person receives information about sterilization and voluntarily consents to the procedure.

Second, it facilitates compliance monitoring. The Sterilization Consent Form has been revised to reflect a new expiration date on the Required Consent Form. There are no other revisions to the form.

Likely Respondents: Interested persons who desire to send comments regarding this burden estimate or any other aspect of this collection of information that OS specifically requests comments.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Type of respondent	Information collection	Number of respondents	Number of responses per respondent	Average burden per response	Total hours
Citizens Seeking Sterilization	Information Disclosure for <i>Sterilization Consent Form.</i>	100,000	1	1	100,000
Citizens Seeking Sterilization	Record-keeping for <i>Sterilization Consent Form.</i>	100,000	1	15/60	25,000
Total	125,000

OS specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency’s functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
