SUPPLEMENTARY INFORMATION: This administrative action is instituted pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act." The proposed marketing order is authorized under section 8(c) of the Act. This action is governed by the provisions of sections 556 and 557 of title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12866.

The Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) seeks to ensure that within the statutory authority of a program, the regulatory and informational requirements are tailored to the size and nature of small businesses. Interested persons are invited to present evidence at the hearing on the possible regulatory and informational impacts of the proposal on small businesses.

The marketing agreement and order proposed herein have been reviewed under Executive Order 12988, Civil Justice Reform. They are not intended to have retroactive effect.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. A handler is afforded the opportunity for a hearing on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review the Secretary's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

Background

The hearing is called pursuant to the provisions of the Act and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR part 900).

A request for public hearing on the proposed program was submitted to USDA on May 22, 2015, by the American Pecan Board (Board), a proponent group established in 2013 to represent the interests of growers and handlers throughout the proposed fifteen-state production area. A subsequent, modified draft of the proposed regulatory text was submitted June 10, 2015.

The Board was established as a result of industry interest in establishing a Federal program to assist the industry in addressing a number of challenges, namely: A lack of organized representation of industry-wide interests in a single organization; a lack of accurate data to assist the industry in its analysis of production, demand and prices; a lack of coordinated domestic promotion or research; and a forecasted increase in production as a result of new plantings. The Board believes that these factors combined have resulted in the under-performance of the pecan industry vis a vis other nut industries.

According to the Board, pecans are grown for-profit in fifteen states. A 2012 Census of Agriculture by the U.S. Department of Agriculture, National Agricultural Statistics Service indicates a total of 543,486 pecan acres in the U.S. While accurate data for the pecan industry is limited, the Board believes that the majority of these represent commercial production within the proposed production area. Industry grower organizations estimate that there are approximately 2,500 commercial growers, where "commercial" is defined

by a minimum number of acres or product harvested for the business to be commercially viable. Therefore, the estimate of commercial growers does not include backyard production or "hobby farmers."

The number of handlers is estimated to be 250. Shellers, a sub-category of handlers, handle the majority of product sold into the domestic market. There are an estimated 50 commercial shellers currently operating, with 36 meeting the Small Business Administration's definition of small business entity. According to USDA, U.S. pecan production accounts for 80 percent of worldwide production. Pecans rank third in tree-nut consumption in the United States.

Proposed Marketing Order

The proposed marketing order would authorize data collection, research and promotion activities, and grade, size, quality, pack and container regulation. According to the request, the proposed program would increase demand, stabilize grower prices, create sustainable handler margins, and provide a consistent supply of quality pecans for consumers.

If implemented, an administrative council of 17 grower and handler industry representatives, including designated representation for small businesses, would be established. The program would be financed with assessments collected from handlers handling pecans grown within the proposed production area.

Presently, there is no single organization that represents both pecan grower and handler interests industry-wide. There are two state pecan commissions (Georgia and Texas), ten state producer organizations, one national grower association, and one national shellers' association. Promotion and research activities are currently conducted as funding is available by the independent organizations mentioned above, with little coordination among projects. U.S. grade standards are currently in effect on a voluntary basis. These include, "United States Standards for Grades of Pecans in the Shell" (1976) and "United States Standards for Grades of Shelled Pecans" (1969).

The proposal for an order has been widely discussed within the fifteen-state pecan production area for roughly two years. Since May of 2013, the Board has undertaken extensive outreach efforts to build industry support for the proposed program. According to the Board, 38 presentations have been given at grower and sheller conferences and board meetings, state conventions, and industry field days. In addition, the

Board has participated in local pecan meetings throughout the rural areas of the proposed production area to increase awareness, seek input and gather support for the program. Five regional information sessions were held in 2014 with pecan stakeholders including the Southeastern Pecan Growers Association, National Pecan Shellers Association, Western Pecan Growers Association, Georgia Pecan Growers Association, and Texas Pecan Growers Association.

None of the recommendations or proposals discussed herein have received approval by the Secretary of Agriculture.

Testimony is invited at the hearing on the proposed marketing agreement and order (hereinafter referred to as the order) and all of its provisions, as well as any appropriate modifications or alternatives. USDA will make such changes as may be necessary to ensure that all provisions of any potential marketing agreement and marketing order that may result from this hearing conform with each other.

The public hearing is held for the purpose of:

(a) Receiving evidence about the economic and marketing conditions that relate to the proposed order and to appropriate modifications thereof;

(b) Determining whether the handling of pecans produced in the production area is in the current of interstate commerce or directly burdens, obstructs, or affects interstate commerce and foreign commerce;

(c) Determining whether there is a need for a marketing agreement and order for pecans;

(d) Determining the economic impact of the proposed order on the industry in the proposed production area and on the public affected by such program; and

(e) Determining whether the proposed order or any appropriate modification thereof would tend to effectuate the declared policy of the Act.

All persons wishing to submit written material as evidence at the hearing should be prepared to submit four copies of such material at the hearing. Four copies of prepared testimony for presentation at the hearing should also be made available. To the extent practicable, eight additional copies of evidentiary exhibits and testimony prepared as an exhibit should be made available to USDA representatives on the day of appearance at the hearing. Any requests for preparation of USDA data for this rulemaking hearing should be made at least 10 days prior to the beginning of the hearing.

From the time the notice of hearing is issued and until the issuance of a Secretary's decision in this proceeding, USDA employees involved in the decisional process are prohibited from discussing the merits of the hearing issues on an ex-parte basis with any person having an interest in the proceeding. The prohibition applies to employees in the following organizational units: Office of the Secretary of Agriculture; Office of the Administrator, AMS; Office of the General Counsel; and the Fruit and Vegetable Program, AMS.

Procedural Matters Are Not Subject to the Above Prohibition and May Be Discussed at Any Time

Provisions of the proposed marketing agreement and order follow. Those sections identified with an asterisk (*) apply only to the proposed marketing agreement and are proposed by the USDA.

(b) An alternate for a member of the Council shall act in the place and stead of such member in their absence or in the event of their death, removal, resignation, or disqualification, until the next nomination and elections take place for the Council or the vacancy has been filled pursuant to § 986.48, Eligibility.

(c) In the event any member of the Council and their alternate are both unable to attend a meeting of the Council, any alternate for any other member representing the same group as the absent member may serve in the place of the absent member.

Subject to paragraph (c) of this section, in no event shall any member or alternate serve more than eight consecutive years on the Council as either a member or an alternate. However, if selected, an alternate having served up to two consecutive terms may immediately serve as a member for two consecutive terms without any interruption in service. The same is true for a member who, after serving for up to two consecutive terms, may serve as an alternate if nominated without any interruption in service. A person having served the maximum number of terms as set forth above may not serve again as a member or an alternate for at least twelve consecutive months. For purposes of determining when a member or alternate has served two consecutive terms, the accrual of terms shall begin following any period of at least twelve consecutive months out of office.

(c) Each member and alternate member shall continue to serve until a successor is selected and has qualified.

(d) A term of office shall begin as set forth in the by-laws or as directed by the Secretary each year for all members.

§ 986.51 Vacancy.

Any vacancy on the Council occurring by the failure of any person selected to the Council to qualify as a member or alternate member due to a change in status making the member ineligible to serve, or due to death, removal, or resignation, shall be filled, by a majority vote of the Council for the unexpired portion of the term. However, that person shall fulfill all the qualifications set forth in this part as required for the member whose office that person is to fill. The qualifications of any person to fill a vacancy on the Council shall be certified in writing to the Secretary. The Secretary shall notify the Council if the Secretary determines that any such person is not qualified.

members present at a meeting at which there is a quorum shall constitute the act of the Council; *Provided*, That:

In such event, the Council's first preference is a videoconference and second preference is phone conference, both followed by written confirmation of the members attending the meeting.

§ 986.56 Right of the Secretary.

The members and alternates for members and any agent or employee appointed or employed by the Council shall be subject to removal or suspension by the Secretary at any time. Each and every regulation, decision, determination, or other act shall be subject to the continuing right of the Secretary to disapprove of the same at any time, and, upon such disapproval, shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 986.57 Funds and other property.

(a) All funds received pursuant to any of the provisions of this part shall be used solely for the purposes specified in this part, and the Secretary may require the Council and its members to account for all receipts and disbursements.

(b) Upon the death, resignation, removal, disqualification, or expiration of the term of office of any member or employee, all books, records, funds, and other property in their possession belonging to the Council shall be delivered to their successor in office or to the Council, and such assignments and other instruments shall be executed as may be necessary to vest in such successor or in the Council full title to all the books, records, funds, and other property in the possession or under the control of such member or employee pursuant to this subpart.

§ 986.58 Reapportionment and redistricting.

The Council may recommend, subject to approval of the Secretary, reestablishment of regions, reapportionment of members among regions, and may revise the groups eligible for representation on the Council. In recommending any such changes, the following shall be considered:

- (c) The equitable relationship between Council apportionment and regions;
- (d) Changes in industry structure and/or the percentage of crop represented by various industry entities; and,
- (e) Other relevant factors.

Expenses, Assessments and Marketing Policy**§ 986.60 Budget.**

As soon as practicable before the beginning of each fiscal year, and as may be necessary thereafter, the Council shall prepare a budget of income and expenditures necessary for the administration of this part. The Council may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The Council shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

§ 986.61 Assessments.

(a) Each handler who first handles inshell pecans shall pay assessments to the Council. Assessments collected each fiscal year shall defray expenses which the Secretary finds reasonable and likely to be incurred by the Council during that fiscal year. Each handler's share of assessments paid to the Council shall be equal to the ratio between the total quantity of inshell pecans handled by them as the first handler thereof during the applicable fiscal year, and the total quantity of inshell pecans handled by

all regulated handlers in the production area during the same fiscal year. The payment of assessments for the maintenance and functioning of the Council may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative. Handlers may avail themselves of an inter-handler transfer, as provided for in § 986.62, Inter-handler transfers.

(b) Based upon a recommendation of the Council or other available data, the Secretary shall fix three base rates of assessment for inshell pecans handled during each fiscal year. Such base rates shall include one rate of assessment for any or all varieties of pecans classified as native and seedling; one rate of assessment for any or all varieties of pecans classified as improved; and one rate of assessment for any pecans classified as substandard.

(c) Upon implementation of this part and subject to the approval of the Secretary, initial assessment rates per classification shall be set within the following prescribed ranges: Native and seedling classified pecans shall be assessed at one-cent to two-cents per pound; improved classified pecans shall be assessed at two-cents to three-cents per pound; and, substandard classified pecans shall be assessed at one-cent to two-cents per pound. These assessment ranges shall be in effect for the initial four years of the order.

(d) Subsequent assessment rates shall not exceed two percent of the aggregate of all prices in each classification across the production area based on Council data, or the average of USDA reported average price received by growers for each classification, in the preceding fiscal year as recommended by the Council and approved by the Secretary. After four years from the implementation of this part, the Council may recommend, subject to the approval of the Secretary, revisions to this calculation or assessment ranges.

(e) The Council, with the approval of the Secretary, may revise the assessment rates if it determines, based on information including crop size and value, that the action is necessary, and if the revision does not exceed the assessment limitation specified in this section and is made prior to the final billing of the assessment.

(f) In order to provide funds for the administration of the provisions of this part during the first part of a fiscal year, before sufficient operating income is available from assessments, the Council may accept the payment of assessments in advance and may also borrow money for such purposes; *Provided*, That no

loan may amount to more than 50% of projected assessment revenue projected for the year in which the loan is secured and the loan must be repaid within five years.

(g) If a handler does not pay assessments within the time prescribed by the Council, the assessment may be increased by a late payment charge and/or an interest rate charge at amounts prescribed by the Council with approval of the Secretary.

(h) On August 31st of each year, every handler warehousing inshell pecans shall be identified as the first handler of those pecans and shall be required to pay the assessed rate on the category of pecans in their possession on that date. The terms of this paragraph may be revised subject to the recommendation of the Council and approval by the Secretary.

(i) On August 31st of each year, all inventories warehoused by growers from the current fiscal year shall cease to be eligible for inter-handler transfer treatment. Instead, such inventory will require the first handler that handles such inventory to pay the assessment thereon in accordance with the prevailing assessment rates at the time of transfer from the grower to the said handler. The terms of this paragraph may be revised subject to the recommendation of the Council and approval by the Secretary.

§ 986.62 Inter-handler transfers.

Any handler inside the production area, except as provided for in § 986.61(i), Assessments, may transfer inshell pecans to another handler inside the production area for additional handling, and any assessments or other marketing order requirements with respect to pecans so transferred may be assumed by the receiving handler. The Council, with the approval of the Secretary, may establish methods and procedures, including necessary reports, to maintain accurate records for such transfers. All inter-handler transfers will be documented by forms or electronic transfer receipts approved by the Council, and all forms or electronic transfer receipts used for inter-handler transfers shall require that copies be sent to the selling party, the receiving party, and the Council. Such forms must state which handler has the assessment responsibilities.

§ 986.63 Contributions.

The Council may accept voluntary contributions. Such contributions may only be accepted if they are free from any encumbrances or restrictions on their use and the Council shall retain complete control of their use. The

Council may receive contributions from both within and outside of the production area.

§ 986.64 Accounting.

(a) Assessments collected in excess of expenses incurred shall be accounted for in accordance with one of the following:

(1) Excess funds not retained in a reserve, as provided in paragraph (a)(2) of this section shall be refunded proportionately to the persons from whom they were collected; or

(2) The Council, with the approval of the Secretary, may carry over excess funds into subsequent fiscal periods as reserves: *Provided*, That funds already in reserves do not equal approximately three fiscal years' expenses. Such reserve funds may be used:

(i) To defray expenses during any fiscal period prior to the time assessment income is sufficient to cover such expenses;

(ii) To cover deficits incurred during any fiscal period when assessment income is less than expenses;

(iii) To defray expenses incurred during any period when any or all provisions of this part are suspended or are inoperative; and,

(iv) To cover necessary expenses of liquidation in the event of termination of this part.

(b) Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate. To the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(c) All funds received by the Council pursuant to the provisions of this part shall be used solely for the purposes specified in this part and shall be accounted for in the manner provided for in this part. The Secretary may at any time require the Council and its members to account for all receipts and disbursements.

(d) Upon the removal or expiration of the term of office of any member of the Council, such member shall account for all receipts and disbursements and deliver all property and funds in their possession to the Council, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in the Council full title to all of the property, funds, and claims vested in such member pursuant to this part.

(e) The Council may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for

holding records, funds, or any other Council property during periods of suspension of this subpart, or during any period or periods when regulations are not in effect and if the Secretary determines such action appropriate, he or she may direct that such person or persons shall act as trustee or trustees for the Council.

§ 986.65 Marketing policy.

By the end of each fiscal year, the Council shall make a report and recommendation to the Secretary on the Council's proposed marketing policy for the next fiscal year. Each year such report and recommendation shall be adopted by the affirmative vote of at least two-thirds (2/3) of the members of the Council and shall include the following and, where applicable, on an inshell basis:

- (a) Estimate of the grower-cleaned production and handler-cleaned production in the area of production for the fiscal year;
- (b) Estimate of disappearance;
- (c) Estimate of the improved, native, and substandard pecans;
- (d) Estimate of the handler inventory on August 31, of inshell and shelled pecans;
- (e) Estimate of unassessed inventory;
- (f) Estimate of the trade supply, taking into consideration trade inventory, imports, and other factors;
- (g) Preferable handler inventory of inshell and shelled pecans on August 31 of the following year;
- (h) Projected prices in the new fiscal year;
- (i) Competing nut supplies; and,
- (j) Any other relevant factors.

The Council, with the approval of the Secretary, may establish or provide for the establishment of production research, marketing research and development projects, and marketing promotion, including paid advertising, designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of pecans including product development, nutritional research, and container

- (2) That regulations issued hereunder no longer tend to effectuate the declared policy of the Act.

(c) The authority to regulate as put forward in this section shall not in any way constitute authority for the Council to recommend volume regulation, such as reserve pools, producer allotments, or handler withholding requirements which limit the flow of product to market for the purpose of reducing market supply.

(d) The Council may recommend, subject to the approval of the Secretary, rules and regulations to effectuate this subpart.

Such termination shall be effective only if announced on or before the last day of the then current fiscal year.

(d) The Secretary shall conduct a referendum within every five-year period beginning from the implementation of this part, to ascertain whether continuance of the provisions of this part applicable to pecans are favored by two-thirds by number or volume of growers voting in the referendum. This marketing agreement shall not alter the terms of this part. Upon the termination of this part, the marketing agreement has no further force or effect.

Energy Conservation Program for Certain Industrial Equipment: Energy Conservation Standards for Dedicated-Purpose Pool Pumps

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Reopening of public comment period.

SUMMARY: On May 8, 2015, the U.S. Department of Energy (DOE) published in the *Federal Register* (80 FR 26475) a Request for Information (RFI) that requests information regarding potential energy efficiency standards for pool pumps established under the Energy Policy and Conservation Act. DOE published the RFI to solicit information to help DOE determine the feasibility of developing energy conservation standards and an appropriate test procedure for this equipment. The RFI outlines the potential scope that could be involved in regulating dedicated-purpose pool pumps, possible industry-based testing methods that could be used to evaluate the efficiency of this equipment, and the types of information that would be needed in analyzing the potential for setting standards for this equipment. It also solicits the public for information to help inform DOE's efforts in evaluating the prospect of regulating this equipment. The comment period for the RFI pertaining to the subject dedicated-purpose pool pumps was scheduled to end June 22, 2015. After receiving a request for additional time to comment, DOE has decided to reopen the comment period for the RFI pertaining to the potential energy efficiency standards for pool pumps until August 17, 2015.
