

Creek Basin) to provide a framework to enhance and improve visitor facilities and visitor experience in this area. The DCP addresses a broad spectrum of issues and use conflicts between recreational activities—in particular, day-use activities and overnight camping.

Alternative A (No Action Alternative) would continue current management, programming, facilities, staffing, and funding at their current levels, and existing plans would be implemented.

Alternative B: Silent City of Rocks (preferred alternative) would focus on the spectacular scenery, geology, biological richness, and cultural landscape experienced by past and present visitors. It would emphasize a backcountry-type visitor experience that would allow for self-discovery within a minimally developed western outdoor environment.

Alternative C: A Stage for Stewardship would protect resources through research activities, educational opportunities, and partnerships by emphasizing the national significance of the Reserve. Visitors would be provided opportunities to learn about the history and the natural wonders within the Reserve.

Alternative D: Treasured Landscapes Inspiring Stories would tell stories of the Reserve through the people who pass through, live, and recreate within it, focusing on the California Trail and the ranching heritage. It would emphasize a frontcountry, day-use experience with more formal and structured recreational opportunities and programs.

Public Engagement: Public scoping formally began on August 25, 2009, with the **Federal Register** publication of a Notice of Intent to prepare an Environmental Impact Statement, followed by widespread mailing of Newsletter #1 which generally described the conservation planning and environmental impact analysis process and the purpose and need for the planning effort. Five public meetings (in Almo, Burley, Pocatello, Boise, and Ketchum, Idaho, during September 21–October 22, 2009) provided an early opportunity for the public to identify issues. Newsletter #2 distributed in winter, 2009/2010 summarized public scoping comments. A third newsletter presenting preliminary alternatives followed in April 2011. In addition to a public meeting at park headquarters in Almo, Idaho, numerous meetings with stakeholders, including the Bureau of Land Management, occurred following announcement of the preliminary alternatives. Newsletter #3 and the

stakeholders meeting were announced via news releases to several media outlets, including local newspapers and radio and television stations. Lastly, a fourth newsletter distributed in March 2012, summarized the more than 150 public comments on the preliminary alternatives.

To facilitate public review of DEIS/GMP, the Reserve Superintendent and NPS planning team will host a public meeting at park headquarters in Almo, Idaho with another meeting possible in Twin Falls, Idaho. As soon as confirmed date(s), specific location(s), and time(s) are determined, this information will be announced via local and regional news media and on the Reserve's Web site (www.nps.gov/ciro). Participants are strongly encouraged to review the Executive Summary and/or complete document prior to attending a meeting. The format will include a brief presentation on the essential elements of the DEIS/GMP, followed by the opportunity to ask questions and provide comments. All meeting locations will be accessible for disabled persons. A sign language interpreter may be available (request in advance by contacting the Reserve at (208) 824–5911).

How to Comment: Information about the 60 day public review and comment period will be announced via local and regional news media. An Executive Summary newsletter for the DEIS/GMP will be mailed to interested parties. Printed copies of the complete document will be available for review at park headquarters in Almo, Idaho, as well as in local public libraries in Burley and Twin Falls, Idaho. Electronic versions of the document will also be available on the Reserve's Web site (www.nps.gov/ciro), and limited numbers of printed or CD format documents may be requested by contacting the Reserve at (208) 824–5911.

Written comments should be addressed to: Superintendent, ATTN: City of Rocks General Management Plan, City of Rocks National Reserve, P.O. Box 169, Almo, ID 83312. Reviewers may also submit comments electronically at <http://parkplanning.nps.gov/ciro>. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Decision Process: Following due consideration of all agency and public comments which are received, a Final Plan/EIS will be prepared; at this time it is anticipated the final document will be available for public inspection during winter, 2015/2016. Because this is a delegated EIS process, the official responsible for the final decision on the GMP is the Regional Director, Pacific West Region, National Park Service. The official responsible for implementation of the approved GMP is the Superintendent, City of Rocks National Reserve.

Dated: March 13, 2015.

Christine S. Lehnertz,
Regional Director, Pacific West Region.
