

SUMMARY: Pursuant to Clean Air Act (CAA) Section 505(b)(2) and 40 CFR 70.8(d), the Environmental Protection Agency (EPA) Administrator signed an Order, dated May 29, 2015, partially granting and partially denying two petitions filed by Bill Green of Richland, Washington (dated April 23, 2013, and April 21, 2014) asking the EPA to object to the title V operating permit (Permit No. 00-05-006, Renewal 2 and Permit No. 00-05-006, Renewal 2, Revision A) issued by the Washington State Department of Ecology (Ecology) to the U.S. Department of Energy-Hanford Operations (DOE) relating to the Hanford site located in south central Washington. Sections 307(b) and 505(b)(2) of the CAA provide that a petitioner may ask for judicial review by the United States Court of Appeals for the appropriate circuit of those portions of the Order that denies objections raised in the petitions.

DATES: Petitions for review of this Order must be filed by September 8, 2015, pursuant to section 307(b) of the CAA.

ADDRESSES: You may review copies of the final Order, the petitions, and other supporting information during normal business hours at EPA Region 10, 1200 Sixth Avenue, Seattle, Washington. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. Additionally, the final Order is available electronically at: http://www.epa.gov/region07/air/title5/petitiondb/petitions/hanford_response2014.pdf.

FOR FURTHER INFORMATION CONTACT: Don Dossett at telephone number: (206) 553-1783, email address: dossett.donald@epa.gov, or the above EPA Region 10 address.

SUPPLEMENTARY INFORMATION: The CAA affords the EPA a 45-day period to review, and object to, as appropriate, a title V operating permit proposed by a state permitting authority. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator, within 60 days after the expiration of this review period, to object to a title V operating permit if the EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or that the grounds for the objection or other issues arose after this period.

The claims are described in detail in Section IV of the Order. In summary, the issues raised are that: (1) The structure of the Hanford Title V Permit does not

provide Ecology the authority to issue a permit that assures compliance with all applicable requirements, in particular, 40 CFR part 61, subpart H (Subpart H) relating to radionuclide air emissions (radionuclides); (2) the structure of the Hanford Title V Permit does not provide Ecology with authority to enforce the portions of the Hanford Title V Permit relating to Subpart H; (3) Ecology did not comply with the requirements for public participation in issuing the Hanford Title V Permit; (4) the permit issuance procedures for the Hanford Title V Permit prevent access to judicial review; (5) the statement of basis for the Hanford Title V Permit related to radionuclides is inadequate; and (6) the Hanford Title V Permit does not include all applicable CAA Section 112 requirements for radionuclides.

The EPA's rationale for partially granting and partially denying the claims raised in the petitions is described in the Order.

Dated: June 22, 2015.

Dennis J. McLerran,

Regional Administrator, EPA Region 10.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[3060-1200]

Information Collection Being Submitted for Review and Approval to the Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated

collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before August 10, 2015. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, OMB, via email Nicholas_A_Fraser@omb.eop.gov; and to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov. Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** section below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Nicole Ongele at (202) 418-2991.

To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the Web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the Web page called "Currently Under Review," (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, (6) when the list of FCC ICRs currently under review appears, look for the OMB control number of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1200.

Title: Rural Broadband Experiments and Post-Selection Review of Rural Broadband Experiment Winning Bidders.

Form Number: FCC Form 5620.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit, and not-for-profit institutions.

Number of Respondents: 47 respondents; 135 responses.

Estimated Time per Response: 2 to 20 hours.

Frequency of Response: One-time and occasional reporting requirements; annual recordkeeping requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151–154 and 254.

Total Annual Burden: 1,834 hours.

Total Annual Cost: No cost(s).

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Information collected in FCC Form 5620 will be confidential. Information reported in the November interim progress report and the build-out milestone certifications will be made publicly available.

Needs and Uses: On January 31, 2014, the Commission released the Tech Transitions et al., GN Docket No. 13–5 et al., 29 FCC Rcd 1433 (2014) (*Tech Transitions Order*), that adopted targeted experiments to explore the impact of technology transitions on rural Americans, including those living on Tribal lands. On July 14, 2014, the Commission released Connect America Fund et al., WC Docket No. 10–90 et al., Report and Order and Further Notice of Proposed Rulemaking, FCC 14–98 (rel. July 14, 2014) (*Rural Broadband Experiments Order*), which established certain parameters and requirements for the rural broadband experiments adopted by the Commission in the *Tech Transitions Order*.

This information collection addresses requirements to carry out the rural broadband experiments the Commission adopted in the *Tech Transitions Order* and the *Rural Broadband Experiments Order*. The Commission has received OMB approval for most of the information collections required by the orders. At a later date, the Commission plans to submit additional revisions to a separate information collection for OMB's review to address other reporting requirements adopted in the *Rural Broadband Experiments Order*. For this revision, subject to OMB approval, the Commission proposes to incorporate the November interim progress report, build-out milestone certifications, and recordkeeping requirements that the Commission adopted in the *Rural Broadband Experiments Order*. If approved, recipients of the rural broadband experiments will be required to submit a one-time report on November 1st after they begin receiving support. This report must describe the status of the recipient's experiment as of September 30th immediately preceding the report (*i.e.*, whether vendors have

been hired, permits have been obtained, and construction has begun), and include evidence demonstrating which locations if any the recipient has built out to in its project areas and evidence demonstrating that the recipient is meeting the public service obligations for the relevant experiment category, including a certification that demonstrates the service the recipient offers complies with the Commission's latency requirements. Rural broadband experiment recipients will also be required to certify that they have met the build-out milestones adopted in the *Rural Broadband Experiments Order*. These certifications will be due for all recipients by the end of the third year and fifth year of support. Recipients that have chosen to receive 30 percent of their support upfront will also be required to submit a build-out milestone certification within 15 months of their first disbursement. Recipients that are determined to not be in compliance with the terms and conditions of the rural broadband experiments during their support term will also be required to submit a certification to demonstrate that they have come into compliance. All of these certifications must be accompanied by the same types of evidence required for the November interim progress report. This report and certifications will enable the Commission to monitor the progress of the rural broadband experiments and ensure that the support is being used for its intended purposes. Finally, rural broadband experiment recipients will be subject to a 10-year record retention requirement and must make those documents and records available to the Commission, any of its Bureaus or Offices, the Universal Service Administrative Company, and their respective auditors to aid these entities in overseeing the recipients' compliance with the terms and conditions of rural broadband experiment support. The Commission also proposes to eliminate FCC Form 5610 that is a part of this information collection. The deadline to file FCC Form 5610 with the Commission was November 7, 2014. Because the Commission does not anticipate holding another round of bidding, no additional entities will be required to file FCC Form 5610. There are no proposed changes to the currently approved FCC Form 5620 which is also a part of this information collection. However, the Commission proposes to increase the number of respondents involved in the post-selection review because more winning bidders were provisionally selected than the Commission anticipated.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
