

to the eventual phaseout of Class II controlled substances with similar exemptions beyond the phaseout. Additionally, the CAA has its own limits on production and consumption of controlled substances that EPA must adhere to and enforce.

To ensure the United States' compliance with the limits and restrictions established by the Protocol and the CAA, the ODS phaseout regulations establish control measures for individual companies. EPA monitors compliance with the limits and restrictions for individual United States companies through the recordkeeping and reporting requirements established in the regulations at 40 CFR part 82, subpart A. To submit required information, regulated entities can download reporting forms, complete them, and then send them to EPA via mail, fax, or electronically. Upon receipt of the reports, EPA enters and stores the data in the ODS Tracking System. The Tracking System is a secure database that maintains all of the data that is submitted to EPA and allows the Agency to: (1) Track over total production and consumption of controlled substances to satisfy conditions of the CAA and fulfill the United States obligations under the Protocol; (2) monitor compliance with limits and restrictions on production, imports, exports, and specific exemptions to the phaseout for individual U.S. companies; and (3) enforce against illegal imports and violations related to the control of Class I and Class II substances. Additionally, reporting on the exemptions allows an entity to retain the benefit of being able to produce or import a controlled Class I ODS beyond the date of complete phaseout.

Pursuant to regulations 40 CFR part 2, subpart B, reporting businesses are entitled to assert a business confidentiality claim covering any part of the submitted business information as defined in 40 CFR part 2, subpart B.

At a later date the Commission plans to submit additional revisions for OMB review to address other reforms adopted in the orders (e.g., 47 CFR 54.313(a)(11)). The revision proposed here contains information collection requirements already reviewed and approved by OMB. Specifically, the Commission proposes to merge the existing universal service information collection requirements from OMB Control No. 3060–1188 into this control number. The Commission proposes to add FCC Form 505, currently approved under collection 3060–1188, to this information collection. There are no changes to the currently approved FCC Form 505. The Commission also

proposes certain changes to FCC Form 481 and its instructions as a result of merging the information collection requirements contained in 3060–0986 and 3060–1188. These changes include revising FCC Form 481 and its instructions to incorporate the certifications and census block data collection requirements for certain recipients of Connect America Phase I incremental support that are currently approved under collection 3060–1188. The Commission also proposes to reduce the number of respondents for reporting and certification requirements related to Connect America Phase I incremental support to reflect the number of price cap carriers that actually accepted such support. Once the Commission receives OMB approval to merge the requirements contained in 3060–1188 under this control number, the Commission will discontinue 3060–1188.

Federal Communications Commission.
