

input it received regarding which of the take prohibitions should be applied.

Species Under the Jurisdiction of the U.S. Fish and Wildlife Service

Six of the ten species added to the Annexes at the December 2014 Cartagena meeting fall under the jurisdiction of the U.S. Fish and Wildlife Service (FWS). As explained earlier in this Notice, two bird species, Zorzal/Tordo de Bicknell ("Bicknell's thrush"), *Catharus bicknelli*; and Petrel de Coronilla negra ("Black-capped petrel"), *Pterodroma hasitata* were added to Annex II. One bird and three plant species, White-crowned pigeon, *Patagioenas (Columba) leucocephala*; Lignum vitae, Holywood, *Guaiaecum sanctum*; Roble Real, *Ekmanianthe longiflora*; and Seibon de Arroyo, *Bombacopsis emarginata* were added to Annex III. FWS is recommending that the reservations for the six species that traditionally fall within FWS jurisdiction be withdrawn.

If reservations are withdrawn regarding the addition of the species under FWS jurisdiction to the SPAW Annexes, FWS believes that existing federal legislation provides sufficient legal authority to implement United States obligations under the SPAW Protocol with respect to these newly added species.

One bird species, the Black-capped petrel, is a marine species and the obligations of the SPAW Protocol will apply in the United States with respect to this species if the reservation regarding its addition to SPAW Annex II is withdrawn. As explained earlier in this Notice, the addition of a marine species to one of the SPAW Annexes requires the United States to implement protections under Article 11(1) of the SPAW Protocol. The Black-capped petrel is included in the list of migratory birds protected under the Migratory Bird Treaty Act (16 U.S.C. 703 *et seq.* (MBTA)). The MBTA's protections include prohibitions on taking, possession, killing, and commercial trade. While the MBTA does allow the Secretary of the Interior to authorize hunting of migratory birds, hunting of Black-capped petrel is not authorized. FWS believes that the MBTA provides sufficient authority and provides the protection necessary to meet the United States obligations that would arise upon withdrawing the United States' reservation to the addition of the Black-capped petrel to SPAW Annex II.

Five of the species under the jurisdiction of the FWS, two species of birds (Bicknell's thrush and White-crowned pigeon) and all three species of plants (Lignum vitae, Roble Real, and

Seibon de Arroyo), are terrestrial species. As explained earlier in this Notice, the United States has not designated any terrestrial area under the SPAW Protocol and the obligations under the SPAW Protocol do not apply in the United States with respect to terrestrial species. Accordingly, no obligations under the SPAW Protocol would apply to these five terrestrial species if the United States' reservations are withdrawn regarding the addition of these species to the SPAW Annexes.

Comments Solicited

The Agencies solicit comments regarding: (1) The extent to which existing U.S. laws and regulations offer protections for these ten species; and (2) information that informs the United States' consideration of whether or not to withdraw the reservation with respect to some or all of these ten species.

Authority: 16 U.S.C. 1531 *et seq.*

Dated: July 10, 2015.

Perry F. Gayaldo,

Deputy Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Evaluation of State Coastal Management Programs

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Office for Coastal Management, National Ocean Service, Commerce.

ACTION: Notice of intent to evaluate.

SUMMARY: The NOAA Office for Coastal Management announces its intent to evaluate the performance of the Puerto Rico Coastal Zone Management Program.

Coastal Zone Management Program evaluations are conducted pursuant to section 312 of the Coastal Zone Management Act of 1972, as amended (CZMA) and regulations at 15 CFR part 923, subpart L. The CZMA requires continuing review of the performance of states and territories with respect to coastal program implementation. Evaluation of a Coastal Management Program requires findings concerning the extent to which a state or territory has met the national objectives, adhered to its Coastal Management Program document approved by the Secretary of Commerce, and adhered to the terms of financial assistance awards funded under the CZMA.

The evaluations will include a public meeting, consideration of written public comments and consultations with interested Federal, state, and local agencies and members of the public. When the evaluation is completed, the NOAA Office for Coastal Management will place a notice in the **Federal Register** announcing the availability of the Final Evaluation Findings. Notice is hereby given of the date, local time, and location of the second public meeting.

DATES: A Puerto Rico Coastal Zone Management Program public meeting will be held on Wednesday, September 2, 2015 at 5 p.m. local time at the Environmental Agencies Building, PR-8838 Km. 6.3, El Cinco, Rio Piedras, San Juan, Puerto Rico.

ADDRESSES: Copies of the most recent performance report, as well as the Office for Coastal Management evaluation notification letter to the territory, are available upon request. Written comments from interested parties are encouraged and a comment period is now open. Comments will be accepted until September 11, 2015. Please direct written comments to Carrie Hall, Evaluator, Planning and Performance Measurement Program, NOAA Office for Coastal Management, 1305 East-West Highway, 11th Floor, N/OCM1, Room 11212, Silver Spring, Maryland 20910, or Carrie.Hall@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Carrie Hall, Evaluator, Planning and Performance Measurement Program, NOAA Office for Coastal Management, NOS/NOAA, 1305 East-West Highway, 11th Floor, N/OCM1, Room 11212, Silver Spring, Maryland 20910, or Carrie.Hall@noaa.gov.

Federal Domestic Assistance Catalog 11.419 Coastal Zone Management Program Administration

Dated: July 9, 2015.

Christopher C. Cartwright,

Associate Assistant Administrator for Management and CFO/CAO, Ocean Services and Coastal Zone Management, National Oceanic and Atmospheric Administration.
