## ENVIRONMENTAL PROTECTION AGENCY

[FRL-9929-41-ORD]

### Final Release of EPA's Report on the Environment (ROE)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of availability.

**SUMMARY:** The U.S. Environmental Protection Agency (EPA) is announcing the availability of the final web-based, "Report on the Environment (ROE)" (EPA/600/R-15/142). The ROE was prepared by the National Center for Environmental Assessment within EPA's Office of Research and Development, working in collaboration with EPA Program and Regional offices. The ROE is a comprehensive source of scientific indicators that describe the status and trends in the nation's environment and human health condition. The indicators help to answer important questions for EPA about the current status and historical trends in U.S. air, water, land, human health, and ecological condition at the national and regional levels. These indicators are based on data collected by EPA, other federal and state agencies, and non-governmental organizations and meet high standards for data quality, objectivity, and utility. The ROE reports status and trends; it does not analyze or diagnose the reasons for, and relationships between, trends in stressors and environmental and health outcomes.

The final ROE can be accessed at the following Web site: <http://www.epa.gov/roe>.

**DATES:** EPA released the report publicly on July 20, 2015.

**ADDRESSES:** The ROE is web-based and is available solely via the Internet at: <http://www.epa.gov/roe>.

**FOR FURTHER INFORMATION CONTACT:** For additional information concerning the ROE, contact Dr. Patricia Murphy, NCEA; telephone: 732-906-6830; facsimile: 732-452-6640; or email: [murphy.patricia@epa.gov](mailto:murphy.patricia@epa.gov).

#### SUPPLEMENTARY INFORMATION:

#### Information About the Project/ Document

EPA's Report on the Environment (ROE) is a comprehensive source of

scientific indicators that describe the status and trends in the nation's environment and human health condition. The indicators help to answer important questions for EPA about the current status and historical trends in U.S. air, water, land, human health, and ecological conditions at the national and, where possible, regional levels. These indicators are based on data collected by EPA, other federal and state agencies, and non-governmental organizations and meet high standards for data quality, objectivity, and utility. The ROE reports status and trends; it does not analyze or diagnose the reasons for, and relationships between, trends in stressors and environmental and health outcomes.

Since its earliest release in 2003, the ROE has undergone periodic updates and restructurings. The latest version features several significant changes, the most notable being that the ROE is fully online, allowing it to be more interactive and accessible. Users can customize graphics and pan and zoom on maps. For certain indicators, users can now choose to view statistical information about the data by simply clicking display options. Additionally, new indicators fill information gaps, which previously lacked reliable, long-term data. The draft ROE 2014 was released in March 2014 and was peer-reviewed by EPA's Science Advisory Board in July 2014. The final ROE can be found at: <http://www.epa.gov/roe>.

Dated: July 14, 2015.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL 9931-17-ORD]

### Environmental Laboratory Advisory Board; Notice of Charter Renewal

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of charter renewal.

Notice is hereby given that the Environmental Protection Agency (EPA) has determined that, in accordance with the provisions of the Federal Advisory Committee Act (FACA), 5 U.S.C. App. 2, the Environmental Laboratory Advisory Board (ELAB) is a necessary committee, which is in the public interest. Accordingly, ELAB will be renewed for an additional two-year period. The purpose of the ELAB is to provide

advice and recommendations to the Administrator of EPA on issues associated with enhancing EPA's measurement programs and the systems and standards of environmental accreditation. Inquiries may be directed to Lara P. Phelps, Designated Federal Officer, U.S. Environmental Protection Agency, Office of the Science Advisor, 109 T.W. Alexander Drive (E243-05), Research Triangle Park, NC 27709 or by email: [phelps.lara@epa.gov](mailto:phelps.lara@epa.gov).

Dated: June 1, 2015.

## FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0139]

### Information Collection Being Reviewed by the Federal Communications Commission

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the
