

LINCS RPDC grants for an additional 12 months, for FY 2015 (through September 30, 2016), using FY 2014 funds. The Secretary is proposing this action in light of the reauthorization of AEFLA by title II of WIOA and the resulting period of significant change for State grantees in transitioning from the program requirements in AEFLA as authorized under WIA to the new program requirements in AEFLA as authorized under WIOA. This action is also consistent with the transition authority in section 503(c) of WIOA, 29 U.S.C. 3343(c), which states that the Secretary shall take such action as determined to be appropriate to provide for the orderly transition from any authority under AEFLA (20 U.S.C. 9201 *et seq.*), as in effect on the day before the date of enactment of WIOA, to any authority under AEFLA, as amended by WIOA. The extension of the four current LINCS RPDCs will provide continuity for States, minimize disruption during the critical transition year, when support and technical assistance from the four experienced LINCS RPDC grantees would be critical, and align a LINCS RPDC grant competition with the full implementation of WIOA.

If the waiver of 34 CFR 75.261(a) and (c)(2) that we propose in this notice is announced by the Department in a final notice, the requirements applicable to continuation awards for current LINCS RPDC grantees and the requirements in 34 CFR 75.253 would apply to any continuation awards sought by current LINCS RPDC grantees.

If we announce this proposed waiver and extension of the project period as final, we would make continuation awards based on information that each grantee had provided, indicating that it is making substantial progress performing its LINCS RPDC grant activities based on the requirements in the notice inviting applications, and based on the regulations in 34 CFR 75.253.

Any activities to be carried out during the continuation year must be consistent with, or be a logical extension of, the scope, goals, and objectives of each grantee's application as approved in the FY 2011 LINCS RPDC competition. Under this proposed waiver and extension, the project period for current LINCS RPDC grantees would be extended through FY 2015 (ending September 30, 2016).

Regulatory Flexibility Act Certification

The Secretary certifies that the proposed waiver and extension of the project period and the activities required to support the additional year of funding would not have a significant

economic impact on a substantial number of small entities. The small entities that would be affected by this proposed waiver and extension of the project period are the four currently-funded LINCS RPDC grantees and any potential eligible applicants for the LINCS RPDC grants.

The proposed waiver and extension of these current projects would involve minimal compliance costs, and the activities required to support the additional year of funding would not impose additional regulatory burdens or require unnecessary Federal supervision.

Paperwork Reduction Act of 1995

This notice of proposed waiver and extension of the project period does not contain any information collection requirements.

Intergovernmental Review

The LINCS RPDC program is subject to Executive Order 12372 and the regulations in 34 CFR part 79. Information about Intergovernmental Review of Federal Programs under Executive Order 12372 is in the application package for this competition.

On page 31316, under *Background*, in the third paragraph of the third column, fifth and sixth lines, we remove the reference to “in FY 2014”, and in the eighth line, we remove the reference to “FY 2015” and replace it with “FY 2014”. The sentence now correctly reads, “The Secretary’s waiver of 34 CFR 75.261(a) and (c)(2) and extension of the current LINCSPDC project period means that: (1) Current LINCSPDC grantees will be authorized to request and receive LINCSPDC continuation awards for one additional year through FY 2014; (2) we will not announce a new LINCSPDC competition to make new awards in FY 2014 . . .”

On page 31316, under *Background*, in the fifth paragraph of the third column, we remove the phrase “FY 2015” with FY 2014, funds” and replace it with the phrase “FY 2014, with FY 2013 funds”. G2 LNG LLC; Application for Long-Term, Multi-Contract Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on March 19, 2015, by G2 LNG LLC (G2 LNG), requesting long-term, multi-contract authorization to export domestically produced liquefied natural gas (LNG) in a volume equivalent to approximately 672 billion cubic feet per year (Bcf/yr) of natural gas (1.84 Bcf/day). G2 LNG seeks to export the LNG from a proposed natural gas liquefaction project to be located along the Calcasieu Ship Channel in Cameron Parish, Louisiana (G2 LNG Project). G2 LNG requests authorization to export this LNG to any country with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas and with which trade is not prohibited by U.S. law or policy (non-FTA countries).¹ G2 LNG requests this authorization for a 30-year term commencing on the earlier of the date of first export or ten years from the date the authorization is granted. G2 LNG seeks to export this LNG on its own behalf and as agent for other entities who hold title to the LNG at the time of export. The Application was filed under section 3(a) of the Natural Gas Act (NGA). Additional details can be found in G2 LNG’s Application, posted on the DOE/FE Web site at: http://energy.gov/sites/prod/files/2015/03/f20/15_45_lng_nfta.pdf.

¹ In a separate application in FE Docket No. 15-44-LNG, G2 LNG also requests authorization to export LNG to any country with which the United States has a FTA requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (FTA countries). DOE/FE will review the request for a FTA export authorization separately pursuant to NGA § 3(c), 15 U.S.C. 717b(c).

DOE/FE Evaluation

The Application will be reviewed pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a), and DOE will consider any issues required by law or policy. To the extent determined to be relevant, these issues will include the domestic need for the natural gas proposed to be exported, the adequacy of domestic natural gas supply, U.S. energy security, and the cumulative impact of the requested authorization and any other LNG export application(s) previously approved on domestic natural gas supply and demand fundamentals. DOE may also consider other factors bearing on the public interest, including the impact of the proposed exports on the U.S. economy (including GDP, consumers, and industry), job creation,
