**SUPPLEMENTARY INFORMATION:****Background**

The draft RIA evaluates the economic and social costs and benefits of the

proposed stream protection rule and its alternatives. The draft RIA was developed in accordance with Executive Order 12866—Regulatory Planning and Review, as modified by Executive Order 13563.

Significant advances in scientific knowledge and mining and reclamation techniques have occurred in the more than 30 years that have elapsed since the enactment of the Surface Mining Control and Reclamation Act of 1977, 30 U.S.C. 1201 *et seq.*, and the adoption of federal regulations implementing that law. The primary purpose of the proposed stream protection rule is to update our regulations and provide regulatory certainty to industry using advances in scientific knowledge to minimize the adverse impacts of surface coal mining operations on surface water, groundwater, fish, wildlife, and related environmental values, with particular emphasis on protecting or restoring streams and aquatic ecosystems.

**How do I comment on the draft RIA?**

We invite the public to comment on the draft RIA during the 60-day comment period. Please see **ADDRESSES** and **DATES** for more information.

We will review and consider all comments submitted to [www.regulations.gov](http://www.regulations.gov) or to the office listed under **ADDRESSES** by the close of the comment period (see **DATES**). We cannot ensure that comments received after the close of the comment period or at a location other than the office and Web site listed under **ADDRESSES** will be included in the docket for this draft RIA or considered in the development of a final RIA.

Please include the Docket ID “OSM–2015–0002” at the beginning of all comments on the draft RIA. Your comments should refer to a specific portion of the draft RIA (citation to the chapter, section, page, paragraph, and sentence to which your comment applies would be helpful), be confined to issues pertinent to the draft RIA, explain the reason for any recommended change or objection, and include supporting data when appropriate.

Before including your address, phone number, email address, or other personally identifiable information in your comment, you should be aware that your entire comment—including your personally identifiable information—may be made publicly available at any time. You may ask us in your comment to withhold your personally identifiable information from public review, but we cannot guarantee that we will be able to do so.
