General Description of Reports

This information collection is mandatory: 12 U.S.C. 602 (Board); 12 U.S.C. 161 and 602 (OCC); and 12 U.S.C. 1828 (FDIC). This information collection is given confidential treatment under 5 U.S.C. 552(b)(4) and (8).

Abstract

The FFIEC 030 contains asset and liability information for foreign branches of insured U.S. banks and insured U.S. savings associations (U.S. institutions) and is required for regulatory and supervisory purposes. The information is used to analyze the foreign operations of U.S. institutions. All foreign branches of U.S. institutions regardless of charter type file this report as provided in the instructions to the FFIEC 030 and FFIEC 030S.

An institution must file a separate report for each foreign branch, but in some cases may consolidate filing for multiple foreign branches in the same country, as discussed below. A branch with either total assets of at least \$2 billion or commitments to purchase foreign currencies and U.S. dollar exchange of at least \$5 billion as of the end of a calendar quarter is considered a "significant branch" and is required to report quarterly on the FFIEC 030. A foreign branch that does not meet either of the criteria to file quarterly, but has total assets in excess of \$250 million, must file the entire FFIEC 030 report on an annual basis as of each December 31.

A foreign branch that does not meet the criteria to file the FFIEC 030 report, but has total assets of \$50 million or more (but less than or equal to \$250 million), must file the Abbreviated Foreign Branch Report of Condition (FFIEC 030S) on an annual basis as of each December 31.

Current Actions

The agencies propose to revise the officer declaration requirement that applies to the FFIEC 030 and FFIEC 030S, reduce the information provided if the consolidation option is elected, and add a field on the cover page for an institution to indicate whether the branch meets the criteria for annual or quarterly filing.

At present, the FFIEC 030 and FFIEC 030S reports must be signed by an authorized officer who addresses the correctness of the information reported by stating only that the report is true and correct to the best of his or her knowledge and belief. The agencies propose to revise the language of this declaration requirement to make explicit that the authorized officer must be an officer of the parent U.S.

institution who attests that the report, including any consolidated branches, has been prepared in conformance with the instructions issued by the Federal Financial Institutions Examination Council and is true and correct to the best of his or her knowledge and belief. In addition, this attestation language would be moved from page 3 to page 1 of the FFIEC 030.

At a U.S. institution's option, branches in a single country currently may report their year-end information on a consolidated basis.¹ When this option is exercised, each branch that is consolidated into the report for the U.S. institution's principal branch in a country is instructed to state on the cover page of its report that no figures are shown for this branch in its report because its figures have been consolidated with those reported by the principal branch in that country. The branch that has been consolidated also must include its address on the cover page of its report, which it must file with the appropriate Federal Reserve District Bank. In turn, the principal branch is instructed to state the number of branches in the country that are consolidated into its report, and then list the address of each consolidated branch. The agencies propose to eliminate the requirement for a branch that is consolidated into the report for the U.S. institution's principal branch in a country to submit the cover page of the report containing the statement that the branch is consolidated into the report filed by the principal branch in that country, along with its address. This requirement is unnecessary given that this information is conveyed in the report for the U.S. institution's principal branch in that country.

The FFIEC 030 report for December 31 must be filed by both annual and quarterly respondents. To aid in identifying annual versus quarterly respondents, the agencies propose to add a field to the cover page of the FFIEC 030 report in which respondents would indicate whether the report is filed annually or quarterly. This field would only need to be completed annually on the December 31 report.

Request for Comment

Public comment is requested on all aspects of this joint notice. Comments are invited on:

a. Whether the information collection is necessary for the proper performance

¹ However, foreign branches that meet the threshold for reporting on a quarterly basis must not be consolidated with any other branch. In addition, a branch with total assets of less than \$50 million, which is exempt from filing the FFIEC 030 and 030S reports, need not be consolidated.

of the agencies' functions, including whether the information has practical utility;

b. The accuracy of the agencies' estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected;

d. Ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

e. Estimates of capital or start up costs and costs of operation, maintenance, and purchase of services to provide the requested information.

Comments submitted in response to this notice will be shared among the agencies. All comments will become a matter of public record.
