#### SUPPLEMENTARY INFORMATION:

#### Background

The Act (16 U.S.C. 1531 *et seq.*) prohibits certain activities with endangered and threatened species unless authorized by a Federal permit. Along with our implementing regulations at 50 CFR 17, the Act provides for permits and requires that we invite public comment before issuing permits for endangered species.

A permit granted by us under section 10(a)(1)(A) of the Act authorizes the permittees to conduct activities with U.S. endangered or threatened species for scientific purposes, enhancement of propagation or survival, or interstate commerce (the latter only in the event that it facilitates scientific purposes or enhancement of propagation or survival). Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

#### Applications Available for Review and Comment

We invite local, State, and Federal agencies and the public to comment on the following applications. Documents and other information the applicants have submitted with their applications are available for review, subject to the requirements of the Privacy Act (5 U.S.C. 552a) and Freedom of Information Act (5 U.S.C. 552).

#### Permit Application Number TE07858A

*Applicant:* Utah State University, Department of Plants, Soils, and Climate, AGRS 339, Logan, UT.

The applicant requests an amendment to their permit that will extend the expiration date. They wish to continue

fruit and seed research for the shrubby reed-mustard (*Schoenocrambe suffrutescens*) in Utah for the purpose of enhancing the species' survival.

#### Permit Application Number TE106387

*Applicants:* USDA Bridger-Teton National Forest, Pinedale, WY.

The applicant requests an amendment to their permit to adjust the take allocation for Kendall Warm Springs dace (*Rhinichthys osculus thermalis*). The request corrects an omission from the original consultation for the purpose of enhancing the species' survival.

#### National Environmental Policy Act

In compliance with the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*), we have made an initial determination that the proposed activities in these permits are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement (516 DM 6 Appendix 1, 1.4C(1)).

#### Public Availability of Comments

All comments and materials we receive in response to these requests will be available for public inspection, by appointment, during normal business hours at the address listed in the **ADDRESSES** section of this notice.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

#### Authority

We provide this notice under section 10 of the Act (16 U.S.C. 1531 *et seq.*).
