SUPPLEMENTARY INFORMATION:

I. Background for EPA's Proposed Action

On September 8, 2011, EPA took final action to approve portions of a requested revision to the Georgia SIP, submitted by EPD on January 13, 2011. See 76 FR 55572. Specifically, the portions of Georgia's January 13, 2011, SIP submittal that EPA approved incorporated two updates to the State's air quality regulations under Georgia's New Source Review (NSR) Prevention of Significant Deterioration (PSD) program. First, the SIP revision established appropriate emission thresholds for determining which new stationary sources and modification projects become subject to Georgia's PSD permitting requirements for their greenhouse gas (GHG) emissions. Second, the SIP revision incorporated provisions for implementing the PSD program for the fine particulate matter (PM_{2.5}) national ambient air quality standards (NAAQS). EPA noted in its September 8, 2011, final rule approving portions of Georgia's January 13, 2011, SIP submittal that the Agency was still evaluating the portion of the SIP submittal related to a provision (at 391-3-1-.02(7)(a)(2)(iv)) that would automatically rescind portions of Georgia's SIP in the wake of certain court decisions or other triggering
