SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Independent Contractor Registration and Identification information collection requirements codified in regulation 30 CFR 45.3(a) and 45.4(a) and (b). Regulations 30 CFR part 45, Independent Contractors, sets forth information requirements and procedures for independent contractors to obtain a MSHA identification number and procedures for service of documents upon independent contractors. The subject information collections support the appropriate assessment of fines for violations by independent contractors and the deterrent effect of MSHA enforcement actions on independent contractors. A contractor may use Form MSHA-7000-52 to register. Federal Mine Safety and Health Act of 1977 sections 101(a) and 103(h) authorize this information collection. See 30 U.S.C. 811(a), 813(h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB

Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0040.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on August 31, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on May 11, 2015 (80 FR 26953).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0040. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

SUPPLEMENTARY INFORMATION:

I. *Background:* The fourth round of the Trade Adjustment Assistance Community College Career Training (TAACCCT) grants program continues to provide community colleges and other eligible institutions of higher education with funds to expand and improve their ability to deliver education and career training programs that can be completed

in two years or less and are suited for workers who are eligible for training under the Trade Adjustment Assistance for Workers program. In this round of grants, the solicitation of grant applications highlighted sector strategies and employer engagement as a core element of the TAACCCT grant activities.

The evaluation of Round 4 funded by the Department of Labor will include a study about employers' perceptions of and involvement with the workforce system and TAACCCT grant program. The study will involve the collection of data through a web-based survey and in-depth phone interviews with targeted employers identified as partners by TAACCCT grantees and other employers in selected grantee states or neighboring areas. This study will inform current and future efforts to encourage and support more effective employer engagement by the workforce system under the Workforce Innovation and Opportunity Act and in other Department-sponsored grant programs, such as TAACCCT.

II. *Desired Focus of Comments:* Currently, the Department of Labor is soliciting comments concerning the above data collection as part of the national evaluation of the TAACCCT grants program. Comments are requested to:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility;

- * evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- * enhance the quality, utility, and clarity of the information to be collected; and

- * minimize the burden of the information collection on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. *Current Actions:* At this time, the Department of Labor is requesting clearance for data collection for the employer perceptions study as part of the evaluation of Round 4 TAACCCT grants program via collection of employer perceptions of the workforce system through an online survey and phone interviews.

Type of review: New information collection request.

OMB Control Number: 1290-0NEW.

Affected Public: Private sector-businesses or other for profits and not for profit institutions (employers involved with TAACCCT grants and other employers in selected grantee states or neighboring areas)
