

in order to maintain air flow within the required tolerance; however, no adjustments to the unit under test may be made.

(7) *Condenser head pressure controls.* Condenser head pressure controls of commercial unitary air conditioners and commercial unitary heat pumps, if typically shipped with units of the basic model by the manufacturer or available as an option to the basic model, must be active during testing.

(8) *Standard CFM.* In the referenced sections of ANSI/AHRI 340/360–2007 for commercial unitary air conditioners and commercial unitary heat pumps, all instances of CFM refer to standard CFM (SCFM). Likewise, all references to airflow or air quantity refer to standard airflow and standard air quantity.

(9) *Capacity rating at part-load.* When testing commercial unitary air conditioners and commercial unitary heat pumps to determine EER for the part-load rating points (*i.e.* 75 percent load, 50 percent load, and 25 percent load), if the measured capacity expressed as a percent of full load capacity for a given part-load test is within three percent above or below the target part-load percentage, the EER calculated for the test may be used without any interpolation to determine IEER.
