

GDP. PCE Goods (retail) was 32 percent of the PCE estimate.

CEA and other government agencies and businesses use the survey results to formulate and make decisions. CEA reports the retail data, one of the principal federal economic indicators, to the President each month for awareness on the current picture on the "state of the economy" and presents the data in one of the tables in Economic Indicators, a monthly publication prepared for Congress and the public. In addition, CEA's Macroeconomic Forecaster uses the retail sales data, one of the key monthly data releases each month, to keep track of real economic growth in the current quarter. According to CEA, spending components in the retail sales report constitute about 25 percent of the GDP, well in excess of any other indicator.

Policymakers such as the FRB need to have the timeliest estimates in order to anticipate economic trends and act accordingly. BLS uses the estimates to develop consumer price indexes used in inflation and cost of living calculations. In addition, businesses use the estimates to measure how they are performing and predict future demand for their products.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The Quarterly Survey of Financial Services Transactions between U.S. Financial Services Providers and Foreign Persons (BE-185) is a survey that collects data from U.S. financial services providers that engage in covered transactions with foreign persons in financial services. A U.S. person must report if it had sales of covered services to foreign persons that exceeded \$20 million for the previous fiscal year, or that are expected to exceed that amount during the current fiscal year, or if it had purchases of covered services from foreign persons that exceeded \$15 million for the previous fiscal year, or that are expected to exceed that amount during the current fiscal year.

The data collected on the survey are needed to monitor U.S. trade in services, to analyze the impact of U.S. trade on the U.S. and foreign economies, to compile and improve the U.S. economic accounts, to support U.S. commercial policy on trade in services, to conduct trade promotion, and to improve the ability of U.S. businesses to identify and evaluate market opportunities. The data are used in estimating the financial services component of the U.S. international transactions accounts and national income and product accounts.

The Bureau of Economic Analysis (BEA) is proposing minor additions and modifications to the current BE-185 survey. The effort to keep current reporting requirements generally unchanged is intended to minimize respondent burden while considering the needs of data users. Existing language in the instructions and definitions will be reviewed and adjusted as necessary to clarify survey requirements.

**II. Method of Collection**

Form BE-185 is a quarterly report that must be filed within 45 days after the end of each fiscal quarter, or within 90 days after the close of the fiscal year. **Tapered Roller Bearings and Parts Thereof, Finished and Unfinished, From the People's Republic of China: Initiation of Antidumping Duty Changed Circumstances Review**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Timken Company (the petitioner) has filed a request for the Department of Commerce (the Department) to initiate a changed circumstances review of the antidumping duty order on tapered roller bearings (TRBs) and parts thereof from the People's Republic of China (PRC). The petitioner alleges that Shanghai General Bearing Co., Ltd. (SGBC/SKF), a PRC TRBs producer previously revoked from the antidumping duty order, has resumed sales at prices below normal value (NV). Therefore, the petitioner requests that the Department conduct a review to determine whether to reinstate the antidumping duty order with respect to SGBC/SKF.

In accordance with section 751(b) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.216(b), the Department finds the information submitted by the petitioner sufficient to warrant initiation of a changed circumstances review of the antidumping duty order on TRBs from the PRC with respect to SGBC/SKF. The period of review (POR) is June 1, 2014, through May 31, 2015.

In this changed circumstances review, we will determine whether SGBC/SKF sold TRBs at less than NV subsequent to its revocation from the order. If we determine in this changed circumstances review that SGBC/SKF sold TRBs at less than NV and resumed dumping, effective on the date of publication of our final results, we will direct U.S. Customs and Border Protection (CBP) to suspend liquidation of all entries of TRBs manufactured and exported by SGBC/SKF.

**DATES:** *Effective date:* August 13, 2015.
