

GDP. PCE Goods (retail) was 32 percent of the PCE estimate.

CEA and other government agencies and businesses use the survey results to formulate and make decisions. CEA reports the retail data, one of the principal federal economic indicators, to the President each month for awareness on the current picture on the "state of the economy" and presents the data in one of the tables in Economic Indicators, a monthly publication prepared for Congress and the public. In addition, CEA's Macroeconomic Forecaster uses the retail sales data, one of the key monthly data releases each month, to keep track of real economic growth in the current quarter. According to CEA, spending components in the retail sales report constitute about 25 percent of the GDP, well in excess of any other indicator.

Policymakers such as the FRB need to have the timeliest estimates in order to anticipate economic trends and act accordingly. BLS uses the estimates to develop consumer price indexes used in inflation and cost of living calculations. In addition, businesses use the estimates to measure how they are performing and predict future demand for their products.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: International Trade Administration.

Title: Procedures for Considering Requests and Comments from the Public for Textile and Apparel Safeguard Actions on Imports from Colombia.

Form Number(s): None.

OMB Control Number: 0625-0271.

Type of Request: Regular submission.

Burden Hours: 24.

Number of Respondents: 6 (1 for Request; 5 for Comments).

Average Hours per Response: 4 hours for a Request; and 4 hours for each Comment.

Average Annual Cost to Public: \$960.

Needs and Uses: Title III, Subtitle B, Section 321 through Section 328 of the United States-Colombia Trade Promotion Agreement Implementation Act (the "Act") [Pub. L. 112-42] implements the textile and apparel safeguard provisions, provided for in Article 3.1 of the United States-Colombia Trade Promotion Agreement (the "Agreement"). This safeguard mechanism applies when, as a result of the elimination of a customs duty under the Agreement, a Colombian textile or apparel article is being imported into the United States in such increased quantities, in absolute terms or relative to the domestic market for that article, and under such conditions as to cause serious damage or actual threat thereof to a U.S. industry producing a like or directly competitive article. In these circumstances, Article 3.1 permits the United States to increase duties on the imported article from Colombia to a level that does not exceed the lesser of the prevailing U.S. normal trade relations (NTR)/most-favored-nation (MFN) duty rate for the article or the U.S. NTR/MFN duty rate in effect on the day before the Agreement entered into force.

The Statement of Administrative Action accompanying the Act provides that the Committee for the Implementation of Textile Agreements (CITA) will issue procedures for requesting such safeguard measures, for making its determinations under section 322(a) of the Act, and for providing relief under section 322(b) of the Act.

In Proclamation No. 8818 (77 FR 29519, May 18, 2012), the President delegated to CITA his authority under Subtitle B of Title III of the Act with respect to textile and apparel safeguard measures.

CITA must collect information in order to determine whether a domestic textile or apparel industry is being adversely impacted by imports of these products from Colombia, thereby allowing CITA to take corrective action to protect the viability of the domestic

textile or apparel industry, subject to section 322(b) of the Act.

Affected Public: Individuals or households; business or other for-profit organizations.

Frequency: On occasion.

Respondent's Obligation: Voluntary.
