SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Section 609 of the Clean Air Act Amendments of 1990 (Act) provides general guidelines for the recovery and recycling of motor vehicle air conditioners. It states that "no person repairing or servicing motor vehicles for consideration may perform any service on a motor vehicle air conditioner involving the refrigerant for such air conditioner without properly using approved refrigerant recovery and/or recovery and recycling equipment (hereafter referred to as "refrigerant handling equipment") and no such person may perform such service unless such person has been properly trained and certified." In 1992, EPA developed regulations under section 609 that were published in 57 FR 31240, and codified at 40 CFR Subpart B (Section 82.30 *et seq.*). The information required to be collected under the Section 609 regulations is: Approved refrigerant handling equipment; approved independent standards testing organizations; technician training and certification; and certification, reporting and recordkeeping.

Form Numbers: None.

Respondents/affected entities: The following is a list of NAICS codes for organizations potentially affected by the information requirements covered under this ICR. It is meant to include any establishment that may service or maintain motor vehicle air conditioners.

- 4411 Automobile Dealers
 - 4413 Automotive Parts, Accessories, and Tire Stores
 - 44711 Gasoline Stations with Convenience Stores
 - 45299 All Other General Merchandise Stores
 - 811198 All Other Automotive Repair and Maintenance
- Other affected groups include:
- Independent Standards Testing Organizations
 - Organizations with Technician Certification Programs

Respondent's obligation to respond: Mandatory (40 CFR 82.36, 82.38, 82.40, 82.42).

Estimated number of respondents: 52,616 per year.

Frequency of response: On occasion.

Total estimated burden: 4,523 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$208,307.40 per year, includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: The Agency anticipates that the total estimated respondent burden will stay substantially the same, or decrease compared with the ICR currently approved by OMB. The Agency anticipates a decrease in the respondent burden for new equipment certifications due to adjustments in the calculation to estimate the burden resulting from required submissions. The Agency also anticipates the respondent burden for updates to certification programs to increase slightly, while the number of new technician certification programs compiling documents for submission to EPA for verification of the program is expected to stay the same.

Dated: August 5, 2015.

Sarah Dunham,

Director, Office of Atmospheric Programs.

Agency Information Collection Activities; PCBs, Consolidated Reporting and Record Keeping Requirements; Submitted to OMB for Review and Approval; Comment Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has submitted the following information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA): "PCBs, Consolidated Reporting and Record Keeping Requirements" and identified by EPA ICR No. 1446.11 and OMB Control No. 2070-0112. The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized in this document. EPA has addressed the comments received in response to the previously provided public review opportunity issued in the **Federal Register** on October 10, 2014 (79 FR 61302). With this submission, EPA is

providing an additional 30 days for public review.

DATES: Comments must be received on or before September 14, 2015.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2014-0597, to both EPA and OMB as follows:

- To EPA online using <http://www.regulations.gov> (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460.
- To OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute. Do not submit electronically any information you consider to be CBI or other information whose disclosure is restricted by statute.

SUPPLEMENTARY INFORMATION:

Docket: Supporting documents, including the ICR that explains in detail the information collection activities and the related burden and cost estimates that are summarized in this document, are available in the docket for this ICR. The docket can be viewed online at <http://www.regulations.gov> or in person at the EPA Docket Center, West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is (202) 566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

ICR status: This ICR is currently scheduled to expire on August 31, 2015. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Under PRA, 44 U.S.C. 3501 *et seq.*, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers are

displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 6(e)(1) of the Toxic Substances Control Act (TSCA), 15 U.S.C. 2605(e), directs EPA to regulate the marking and disposal of polychlorinated biphenyls (PCBs). Since 1978, EPA has promulgated numerous rules addressing all aspects of the life cycle of PCBs as required by the statute. To meet its statutory obligations to regulate PCBs, EPA must obtain sufficient information to conclude that specified activities do not result in an unreasonable risk of injury to health or the environment. EPA uses the information collected under the 40 CFR 761 requirements to ensure that PCBs are managed in an environmentally safe manner and that activities are being conducted in compliance with the PCB regulations. The information collected by these requirements will update the Agency's knowledge of ongoing PCB activities, ensure that individuals using or disposing of PCBs are held accountable for their activities, and demonstrate compliance with the PCB regulations. Specific uses of the information collected include determining the efficacy of a disposal technology; evaluating exemption requests and exclusion notices; targeting compliance inspections; and ensuring adequate storage capacity for PCB waste.

Respondents/Affected Entities:

Entities potentially affected by this ICR are persons who currently possess PCB items, PCB-contaminated equipment, or other PCB waste.

Respondent's obligation to respond:

Responses to the collection of information are mandatory (see 40 CFR part 761). Respondents may claim all or part of a response confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Estimated total number of potential respondents: 548,298.

Frequency of response: On occasion.

Estimated total burden: 745,926 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Estimated total costs: \$ 29,778,544 (per year), includes no annualized capital investment or maintenance and operational costs.

Changes in the estimates: There is an increase of 60,591 hours in the total estimated respondent burden compared with that identified in the ICR currently

approved by OMB. This increase reflects EPA's revisions to the estimated total number of respondents, resulting from new data gathered for this ICR effort as well as another recent PCB regulatory analysis, plus updated Agency data regarding total numbers of regulated entities. The ICR supporting statement provides a detailed analysis of the change in burden estimate. This change is an adjustment.

Authority: 44 U.S.C. 3501 *et seq.*

Acting Director, Collection Strategies Division.

Cross-Media Electronic Reporting: Authorized Program Revision Approval, State of Alaska

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's approval of the State of Alaska's request to revise/modify certain of its EPA-authorized programs to allow electronic reporting.

DATES: EPA's approval is effective August 13, 2015.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems
