DEPARTMENT OF COMMERCE
Patent and Trademark Office
Invention Promoters/Promotion Firms Complaints

ACTION: Proposed collection; comment request

SUMMARY: The United States Patent and Trademark Office (USPTO), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to comment on the extension of a continuing information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before October 16, 2015.

ADDRESSES: Written comments may be submitted by any of the following methods:

- Email: InformationCollection@uspto.gov. Include “0651–0044 comment” in the subject line of the message.

- Mail: Marcie Lovett, Records Management Division Director, Office of the Chief Information Officer, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450.

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be directed to Cathie Kirik, MailStop 24, Commissioner for Patents, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450; by telephone at 571–272–8040; or by email at Cathie.Kirik@uspto.gov with “0651–0044 comment” in the subject line. Additional information about this collection is also available at http://www.reginfo.gov under “Information Collection Review.”

SUPPLEMENTARY INFORMATION:

I. Abstract

Under the Inventors’ Rights Act of 1999, as found in 35 U.S.C. 297 and implemented by 37 CFR part 4, the United States Patent and Trademark Office (USPTO) is required to provide a forum for the publication of complaints concerning invention promoters and responses from the invention promoters to these complaints. An individual may submit a complaint concerning an invention promoter to the USPTO, which will forward the complaint to the invention promoter for response. The complaints and responses will be published and made available to the public on the USPTO Web site. The USPTO does not investigate these complaints or participate in any legal proceedings against invention promoters or promotion firms.

Complaints submitted to the USPTO must (1) identify the name and address of the complainant and the invention promoter or promotion firm; (2) explain the basis for the complaint; and (3) include the signature of the complainant. The identifying information is necessary so that the USPTO can both forward the complaint to the invention promoter or promotion firm as well as notify the complainant that the complaint has been forwarded. Complainants should understand that the complaints will be forwarded to the invention promoter for response and that the complaint and response will be made available to the public as required by the Inventors’ Rights Act. If the USPTO does not receive a response from the invention promoter, the complaint will still be published without the response. The USPTO does not accept complaints under this program if the complainant requests confidentiality.

This information collection includes one form, Complaint Regarding Invention Promoter (PTO/SB/2048A), which is used by the public to submit a complaint under this program. This form is available for download from the USPTO Web site. Use of this form is not mandatory, and the complainant may submit their complaint without the form via any of the approved methods of collection as long as the complainant includes the necessary information and the submission is clearly marked as a complaint filed under the Inventors’ Rights Act. There is no associated form for submitting responses to the complaints.

II. Method of Collection

By mail, facsimile, or hand delivery to the USPTO.

III. Data

OMB Number: 0651–0044.

IC Instruments and Forms: The individual instruments in this collection, as well as their associated forms, are listed in the table below.

Type of Review: Revision of a Previously Existing Information Collection.

Affected Public: Individuals or households; businesses or other for-profits; and not-for-profit institutions.

Estimated Number of Respondents: 50 responses per year. Of this total, the USPTO expects that 100% will be submitted on paper.

Estimated Time per Response: The USPTO estimates that it will take the public approximately 15 minutes (0.25 hours) to gather the necessary information, prepare the form, and submit a complaint to the USPTO and approximately 30 minutes (0.5 hours) for an invention promoter or promotion firm to prepare and submit a response to a complaint.

Estimated Total Annual Hour Burden: 17.5 hours.

Estimated Total Annual Cost Burden (Hourly): $3,026.25. The USPTO expects that complaints will be prepared by paraprofessionals or independent inventors. Using the average of the paraprofessional rate of $125 per hour and the estimated rate of $30 per hour for independent inventors, the USPTO estimates that the average rate for preparing the complaints will be approximately $77.50 per hour.

The USPTO expects that the responses to the complaints will be prepared by attorneys or invention promoters. Using the average of the professional rate of $389 per hour for attorneys in private firms and the estimated rate of $100 per hour for invention promoters, the USPTO estimates that the average rate for preparing the responses to the complaints will be approximately $244.50 per hour. The time per response, estimated annual responses, and estimated annual hour burden associated with each instrument in this information collection is shown in the table below.

DEPARTMENT OF COMMERCE
Patent and Trademark Office

Submission for OMB Review; Comment Request; “Patents for Humanity Program”

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Title: Patents for Humanity Program.
OMB Control Number: 0651-0066.
Form Number(s):
- PTO/PFH/001
- PTO/PFH/002
- PTO/SB/431
Type of Request: Regular.
Number of Respondents: 110 responses per year.
Average Minutes per Response: 60 minutes (attorney) or 180 minutes (paralegal) for the Humanitarian Program Application, and 60 minutes for the Petition to Extend the Redemption Period of the Humanitarian Awards Certificate.
Burden Hours: 410.
Cost Burden: 50.

Needs and Uses

The Patents for Humanity Program is designed to incentivize the distribution of patented technologies or products to address humanitarian needs, and is open to any patent owners or patent licensees, including inventors who have not assigned their ownership rights to others, assignees, and exclusive or non-exclusive licensees. Applications are considered in five categories: Medicine, Nutrition, Sanitation, Household Energy, and Living Standards.

The USPTO has developed two application forms that applicants can use to apply for participation in the Patents for Humanity Program—one application covers the humanitarian uses of technologies or products and the other application covers humanitarian research. Applicants may optionally provide contact information for the public to reach them with any inquiries. Additionally, applicants may provide non-public contact information by email to the USPTO in order to be notified about their award status. Applications must be submitted electronically as described at http://www.uspto.gov/patentsforhumanity. Complete submitted applications will be available on the public Web site after being screened for inappropriate material.

The applications are reviewed by external judges working independently. A selection committee composed of representatives from other federal agencies and laboratories will make recommendations for the awards based on the judges’ reviews. Those applicants who are selected for an award will receive a certificate redeemable to accelerate select matters before the USPTO and public recognition of their efforts, including an awards ceremony at the USPTO. The certificates can be redeemed to accelerate one of the following matters: an ex parte reexamination proceeding, including one appeal to the Patent Trial and Appeal Board (PTAB) from that proceeding; a patent application, including one appeal to the PTAB from that application; or an appeal to the PTAB of a claim twice rejected in a patent application or reissue application or finally rejected in an ex parte reexamination, without accelerating the underlying matter which generated the appeal. The certificates cannot be transferred to other parties.

Affected Public: Individuals or households, businesses or other for-profits; not-for-profit institutions.
Frequency: Annually.
Respondent’s Obligation: Required to obtain or retain benefits.
OMB Desk Officer: Nicholas A. Fraser, email: Nicholas_A._Fraser@omb.eop.gov.
