DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration, Docket: FDA–2015–D–1176

Compounding Animal Drugs From Bulk Drug Substances; Draft Guidance for Industry; Extension of Comment Period

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice; extension of comment period.

SUMMARY: The Food and Drug Administration (FDA) is extending the comment period for the document that appeared in the Federal Register of May 19, 2015. In the document, FDA requested comments on draft guidance for industry (GFI) #230 entitled “Compounding Animal Drugs from Bulk Drug Substances.” FDA is taking this action in response to a request for an extension to allow interested persons additional time to submit comments.

DATES: FDA is extending the comment period on the document published May 19, 2015 (80 FR 28624). Submit either electronic or written comments on the draft guidance by November 16, 2015.

ADDRESSES: You may submit comments by any of the following methods.

Electronic Submissions

Submit electronic comments in the following way:
  • Federal eRulemaking Portal: http://www.regulations.gov. Follow the instructions for submitting comments.

Written Submissions

Submit written comments in the following ways:
  • Mail/Hand delivery/Courier (for paper submissions): Division of Dockets Management (HFA–305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.
  • Instructions: All submissions received must include Docket No. FDA–2015–D–1176. All comments received may be posted without change to http://www.regulations.gov, including any personal information provided. For additional information on submitting comments, see the “Request for Comments” heading of the SUPPLEMENTARY INFORMATION section of this document.

Docket: For access to the docket to read background documents or comments received, go to http://www.regulations.gov and insert the docket number, found in brackets in the heading of this document, into the “Search” box and follow the prompts and/or go to the Division of Dockets Management, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.

FOR FURTHER INFORMATION CONTACT:
Division of Compliance, Center for Veterinary Medicine, Food and Drug Administration (HFV–230), 7519 Standish Pl., Rockville, MD 20855, 240–402–7001, CVMCompliance@fda.hhs.gov.

SUPPLEMENTARY INFORMATION:

I. Background

In the Federal Register of May 19, 2015, FDA published a document with a 90-day comment period for draft GFI #230 entitled “Compounding Animal Drugs from Bulk Drug Substances.” The draft guidance describes FDA’s policies with regard to compounding animal drugs from bulk drug substances. When final, the guidance will reflect FDA’s current thinking on the issues addressed by the guidance.

FDA has received a request for a 90-day extension of the comment period. The request conveyed concern that the current 90-day comment period does not allow sufficient time to respond. FDA has considered the request and is extending the comment period for 90 days, until November 16, 2015. FDA believes that a 90-day extension allows adequate time for interested persons to submit comments without significantly delaying further FDA action on this guidance document.

II. Specific Topics for Comment

In addition to comments on the draft guidance as written, we are specifically requesting comments on the following issues:
  • Should the final guidance address the issue of FDA-approved animal and human drugs that are in shortage or are otherwise unavailable (e.g., disruptions in the manufacture or supply chain; business decisions to stop marketing the drug; drug is subject to Agency action based on safety, effectiveness, or manufacturing concerns)? If so:
    ○ How should these situations be addressed in the final guidance?
    ○ Should the final guidance define the terms “shortage” and “unavailable”?
  ○ What criteria should FDA use to determine if an approved animal or human drug is in shortage or otherwise unavailable?
    • Do United States Pharmacopeia and National Formulary (USP–NF) 1 chapters 795 and 797 provide suitable standards for animal drugs compounded by veterinarians, and if not, what standards of safety, purity, and quality should apply to animal drugs compounded by veterinarians?
    • Should licensed veterinarians be able to sell or transfer an animal drug compounded from bulk drug substances by a State-licensed pharmacy or an outsourcing facility to owners or caretakers of animals under the veterinarian’s care?
    • Should the final guidance include a condition on the amount or percentage of compounded animal drugs that a pharmacy or outsourcing facility can ship in interstate commerce? If so, what would a reasonable amount be?
  • Is additional guidance needed to address the repackaging of drugs for animal use?
    ○ How widespread is the practice of repackaging drugs for animal use?
    ○ What types of drugs are repackaged for animal use, and why are they repackaged?
    ○ Have problems been identified with repackaged drugs for animal use?
  • Is additional guidance needed to address the compounding of animal drugs from approved animal or human drugs under section 512(a)(4) or (a)(5) of the Federal Food, Drug, and Cosmetic Act (the FD&C Act) (21 U.S.C. 360(b)(a)(4) and (a)(5)) and 21 CFR part 530?
  • Is additional guidance needed to address the compounding of animal drugs from bulk drug substances for food-producing animals?

\footnote{1 Chapters <795> “Pharmaceutical Compounding—Nonsterile Preparations” and <797> “Pharmaceutical Compounding—Sterile Preparations” can be found in both the USP Compounding Compendium and the combined United States Pharmacopeia and National Formulary (USP–NF). These compendia are available at http://www.usp.org/}
