Persons interested in being placed on a mailing list for future NPRMs should contact the FAA's Office of Rulemaking, (202) 267-9677, for a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

Availability and Summary of Documents Proposed for Incorporation by Reference

This document proposes to amend FAA Order 7400.9Y, Airspace Designations and Reporting Points, dated August 6, 2014, and effective September 15, 2014. FAA Order 7400.9Y is publicly available as listed in the ADDRESSES section of this proposed rule. FAA Order 7400.9Y lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by removing Class E airspace designated as an extension to Class C airspace at Burbank-Glendale-Pasadena Airport, Burbank, CA. A review of the airspace revealed removal necessary due to no standard instrument approach procedures requiring Class E surface area airspace designated as an extension to the Class C airspace.

Class E airspace designations are published in paragraph 6003 of FAA Order 7400.9Y, dated August 6, 2014, and effective September 15, 2014, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation; (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities

under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

- 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

- 2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.9Y, Airspace Designations and Reporting Points, dated August 6, 2014, and effective September 15, 2014, is amended as follows:

Paragraph 6003: The Class E Airspace Areas Listed Below Consist of Airspace Extending Upward From the Surface Designated as an Extension to a Class C Surface Area

BILLING CODE 4910-13-P

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Part 1500

[Docket No. CPSC-2015-0022]

Petition Requesting Rulemaking on Products Containing Organohalogen Flame Retardants

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of petition for rulemaking.

SUMMARY: The United States Consumer Product Safety Commission ("CPSC" or "Commission") received a petition requesting that the Commission initiate rulemaking under the Federal Hazardous Substances Act ("FHSA") to declare several categories of products containing additive organohalogen flame retardants to be "banned hazardous substances." The Commission invites written comments concerning the petition.

DATES: The Office of the Secretary must receive comments on the petition by October 19, 2015.

ADDRESSES: You may submit comments, identified by Docket No. CPSC-2015-0022, by any of the following methods:

Electronic Submissions: Submit electronic comments to the Federal eRulemaking Portal at: <http://www.regulations.gov>. Follow the instructions for submitting comments. The Commission does not accept comments submitted by electronic mail (email), except through www.regulations.gov. The Commission encourages you to submit electronic comments by using the Federal eRulemaking Portal, as described above.

Written Submissions: Submit written submissions by mail/hand delivery/courier to: Office of the Secretary, Consumer Product Safety Commission, Room 820, 4330 East West Highway, Bethesda, MD 20814; telephone (301) 504-7923.

Instructions: All submissions received must include the agency name and docket number for this proposed rulemaking. All comments received may be posted without change, including any personal identifiers, contact information, or other personal information provided, to: <http://www.regulations.gov>. Do not submit confidential business information, trade secret information, or other sensitive or protected information that you do not want to be available to the public. If furnished at all, such information should be submitted in writing.

Docket: For access to the docket to read background documents or comments received, go to: <http://www.regulations.gov>, and insert the docket number, CPSC-2015-0022, into the "Search" box, and follow the prompts. A copy of the petition is available at <http://www.regulations.gov> under Docket No. CPSC-2015-0022, Supporting and Related Materials.

FOR FURTHER INFORMATION CONTACT: Todd Stevenson, Office of the Secretary, U.S. Consumer Product Safety

Commission, Room 820, 4330 East West Highway, Bethesda, MD 20814; telephone (301) 504-6833.

SUPPLEMENTARY INFORMATION: The Commission received a petition requesting that the Commission initiate rulemaking under the FHSA to declare several categories of products containing additive organohalogen flame retardants to be “banned hazardous substances.” Specifically, the request asks the Commission to declare that:

- Any durable infant or toddler product, children’s toy, child care article, or other children’s product (other than children’s car seats) that contains additive organohalogen flame retardants, is a “banned hazardous substance”;
- Any article of upholstered furniture sold for use in residences and containing additive organohalogen flame retardants is a “hazardous substance” and a “banned hazardous substance”;
- Any mattress or mattress pad with additive organohalogen flame retardants is a “hazardous substance” and a “banned hazardous substance”; and
- Any electronic device with additive organohalogen flame retardants in its plastic casing is a “hazardous substance” and a “banned hazardous substance.”

The petition was filed by Earthjustice and the Consumer Federation of America, which are joined by American Academy of Pediatrics, American Medical Women’s Association, Consumers Union, Green Science Policy Institute, International Association of Fire Fighters, Kids in Danger, Philip Landrigan, M.D., M.P.H., League of United Latin American Citizens, Learning Disabilities Association of America, and Worksafe.

Petitioners assert that additive organohalogen flame retardants are used extensively in the consumer products categories that would be covered by their rulemaking request. Petitioners further assert that, based on the physico-chemical properties of additive organohalogen flame retardants, all such chemicals in this class will migrate out of consumer products and persist in the indoor environment. According to petitioners, because organohalogen flame retardants are, as a class, foreign to the human body and inherently toxic due to their physical, chemical, and biological properties, human exposure to these chemicals will result in adverse human health impacts. Finally, petitioners provide data and information regarding adverse human health impacts, which include

reproductive impairment, neurological impacts, endocrine disruption and interference with thyroid hormone action, genotoxicity, cancer, and immune disorders.

Petitioners assert that declaring the specified categories of products containing additive organohalogen flame retardants to be “banned hazardous substances” is necessary to adequately protect public health and safety. More specifically, petitioners assert that action short of a ban under the FHSA would not adequately protect the public health and safety because warning labeling cannot adequately prevent or control exposure to flame retardants that migrate from products into homes. Furthermore, petitioners argue that the ban must apply to the entire class of additive organohalogen flame retardants because banning only individual chemicals within that class would allow other inherently toxic chemicals within that class to be used.

By this notice, the Commission seeks comments concerning this petition. Interested parties may obtain a copy of the petition by writing or calling the Office of the Secretary, U.S. Consumer Product Safety Commission, Room 820, 4330 East West Highway, Bethesda, MD 20814; telephone (301) 504-7923. A copy of the petition is also available for viewing under “Supporting and Related Materials” in www.regulations.gov under this docket number, Docket No. CPSC-2015-0022.

Dated: August 14, 2015.

Todd A. Stevenson,

Secretary, U.S. Consumer Product Safety Commission.
