

facility in accordance with section § 63.1340(b)(1).

Q5: If the PC NESHAP requirements for the kiln (which includes the coal mills) are not applicable, are the emissions from the Harleyville coal mills only subject to the subpart Y concentration and opacity standards?

A5: No. The kiln emissions are routed through the coal mills so the subpart DDDD requirements will apply to the emissions exiting the coal mills, in addition to the subpart Y requirements.

Q6: Do the requirements of Subpart DDDD apply to the Harleyville CISWI kiln emissions routed through the in-line coal mills (i.e. the PC Coal Mill and the Kiln Coal Mill) associated with the waste burning kiln at the mills that were in place prior to April 2008?

A6: Yes. Any re-routing or commingling of CISWI kiln emissions must not result in uncontrolled emissions directly to the atmosphere. We interpret subpart DDDD (or NSPS CCCC, when applicable) to continue to apply to all of the CISWI waste-burning kiln emissions, even if those emissions are routed through an in-line coal mill or other device prior to exhaust to the atmosphere. Therefore, regardless of the disposition of in-line coal mills as part of the waste burning kiln, the subpart DDDD standards applicable to waste-burning kilns apply to the emissions of the Harleyville kiln when and where they are emitted to the atmosphere.

Q7: Which emissions standards (subpart Y, PC NESHAP and/or subpart DDDD) apply to the emissions from stack 2 at the Roberta Cement Plant located in Calera, Alabama, when the CISWI waste-burning kiln emissions are routed through the coal mill and used to provide heat for drying of the coal before being emitted to the atmosphere?

A7: Based on the information provided by Argos, EPA determines that the Roberta coal mill is a thermal dryer within the meaning of § 60.251(r)(1) and is subject to the provisions in § 60.251, § 60.252(a), § 60.255(a), and § 60.256(a) of subpart Y.

Q8: Which emissions standards apply to the emissions from stack 1 at the Roberta Cement Plant located in Calera, Alabama, wherein the clinker cooler emissions are combined with the kiln emissions and sent to the raw mill to provide heat for drying before being emitted to the atmosphere?

A9: Argos's letter acknowledges that the Roberta in-line kiln/raw mill is a

subpart DDDD affected facility. Also, for the same reasons as discussed in the response to Question 2 for Harleyville Cement Plant, the Roberta clinker cooler is an affected facility under the PC NESHAP. Argos must either comply with the most stringent standard applicable to the various emissions streams or establish a mechanism to apportion emissions to the various operations and seek an alternative methodology for determining compliance under section 60.8(b).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for cancellation of certain pesticide products, identified in Table 1, Unit II, which were voluntarily deleted by the registrant and accepted by the Agency, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This cancellation order follows a March 13, 2013 **Federal Register**, Notice of Receipt of Request from the registrant listed in Table 2 of Unit II to voluntarily cancel these product registrations. The Agency did not receive any comments on the notice. Further, the registrant did not withdraw their request. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the

terms of this order, including any existing stocks provisions.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of canceled pesticide products that are in the United States and that were appropriately packaged, labeled, and released for shipment prior to the effective date of cancellation of the underlying registration. The existing stocks provisions for the products subject to this order are as follows.

The registrant is prohibited from selling or distributing existing stocks above as of August 19, 2015, except for export in accordance with FIFRA section 17 (7 U.S.C. 136o), or proper disposal.
