

If persons who will attend the meeting require accommodations based on a disability, please contact Carolyn Allen at callen@uscrr.gov at the Midwestern Regional Office at least ten (10) working days before the scheduled date of the meeting.

Records and documents discussed during the meeting will be available for public viewing prior to and after the meeting at: <https://database.faca.gov/committee/meetings.aspx?cid=269> and clicking on the "Meeting Details" and "Documents" links. Records generated from this meeting may also be inspected and reproduced at the Regional Programs Unit, as they become available, both before and after the meeting. Persons interested in the work of this Committee are directed to the Commission's Web site, <http://www.usccr.gov>, or may contact the Regional Programs Unit at the above email or street address.

Agenda

Opening Remarks 8–8:15 a.m.

- Panel 1: 8:15 a.m.–9:30 a.m.—School Administrator Panel
- Panel 2: 9:45 a.m.–11:00 a.m.—Academic Panel
- Panel 3: 11:15 a.m.–12:30 p.m.—Community Panel

Break 12:30 p.m.–1:30 p.m.

- Panel 4: 1:30 p.m.–2:45 p.m.—Government Panel
- Panel 5: 3:00 p.m.–4:15 p.m.—Teacher Panel
- Open Forum 4:15–4:45 p.m.—Public Participation

Closing Remarks 4:45–5 p.m.

DATES: The meeting will be held on Friday, September 11, 2015, from 8 a.m.–5 p.m.

ADDRESSES: The meeting will be held at the Oklahoma City University School of Law, Crowe & Dunlevy Commons, 800 N. Harvey Avenue, Oklahoma City 73102.

FOR FURTHER INFORMATION CONTACT: Melissa Wojnarowski, DFO, at 312–353–8311 or mwojnarowski@uscrr.gov.

Dated: August 17, 2015.

David Mussatt,

Chief, Regional Programs Unit.

BILLING CODE 6335–01–P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and

Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Quarterly Survey of Plant Capacity Utilization.

OMB Control Number: 0607–0175.

Form Number(s): MQ–C2.

Type of Request: Extension of a currently approved collection.

Number of Respondents: 7,500.

Average Hours Per Response: 2 hours and 5 minutes.

Burden Hours: 62,500.

Needs and Uses: The U.S. Census Bureau on behalf of the Federal Reserve Board (FRB) and the Defense Logistics Agency (DLA), within the Department of Defense (DOD), requests an extension of approval for the Quarterly Survey of Plant Capacity Utilization (QPC). The survey provides information on use of industrial capacity in manufacturing and publishing plants as defined by the North American Industry Classification System (NAICS). The Survey of Plant Capacity Utilization began in the 1970's as an annual survey that collected fourth quarter data only. The annual survey continued through 2006. In 2007 the FRB requested that the survey be converted to a quarterly survey due to the necessity for quarterly data rather than annual. The survey is the only source of capacity rates at industry levels. Changes in capacity utilization are considered important indicators of investment demand and inflationary pressure. For these reasons, the estimates of capacity utilization are closely monitored by government policy makers and private sector decision makers.

This survey utilizes a multi-mode data collection process that includes internet reporting, fax, telephone and mail. The survey collects the value of quarterly production and the value of production that could be achieved if operating under "full production" capability and "emergency production" capability. The ratio of the actual to the full is the basis of the estimates of full capacity utilization rates and similarly, the actual to the emergency for the emergency capacity utilization rates. The survey also collects information by shift, on work patterns at the actual production level.

The FRB is the primary user of the current QPC data and expressed the need for these quarterly data. FRB publishes measures of industrial production (IP), capacity, and capacity utilization in its G.17 statistical release, which has been designated by the federal government as a Principal

Federal Economic Indicator. Utilization rates from the QPC are a principle source for the measures of capacity and capacity utilization. The indexes of IP are either estimated from physical product data or estimated from monthly data on inputs to the production process, specifically production worker hours and an indicator of capital input. For many years, data on electric power use was used as the indicator of industry capital input. The deregulation of electricity markets led to the deterioration in the coverage and quality of the electricity data. As a result, in November 2005, the FRB discontinued its use of the industrial electric power data in the current estimates of IP. In order to maintain the quality of the IP index, the collection of these quarterly data, including the utilization rate data and the workweek of capital, are critical indicators of capital input use and industry output.

The FRB uses these data in several ways. First, the QPC data is the primary source of the benchmark information for the capacity indexes and utilization rates published by the FRB. Second, the QPC utilization rate data and the capital workweek data are used as an indicator of capital use in the estimation of monthly IP. Third, the QPC utilization rate data and the workweek data are used to improve the projections of labor productivity that are used to align IP with comprehensive benchmark information from the Economic Census covering the Manufacturing sector and the Annual Survey of Manufactures. Finally, utilization rate data will assist in the assessment of recent changes in IP, as most of the high-frequency movement in utilization rates reflect production changes rather than capacity changes.

The DLA uses the data to assess readiness to meet demand for goods under selected national emergency scenarios.

In addition to the FRB and DLA uses, these data are published on the Census Bureau's Web site, <http://www.census.gov/manufacturing/capacity/index.html>.

Affected Public: Business or other for-profit.

Frequency: Quarterly.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Section 8(b), 50 U.S.C. Section 98, et. seq, and 12 U.S.C. Section 244.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to
OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: August 18, 2015.

Glenna Mickelson,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-07-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XD784

Fisheries of the Northeastern United States; Atlantic Herring Fishery; Supplemental Notice of Intent To Prepare an Environmental Impact Statement; Scoping Process; Request for Comments

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Supplemental notice of intent (NOI) to prepare an environmental impact statement (EIS); request for comments.

SUMMARY: The New England Fishery Management Council is in the process of preparing an environmental impact statement for Amendment 8 to the Atlantic Herring Fishery Management Plan. Amendment 8 would specify a long-term acceptable biological catch control rule for the herring fishery and consider alternatives for this control rule that explicitly account for herring's role in the ecosystem. The Council recently decided to expand the scope of Amendment 8 to include consideration of localized depletion in inshore waters. During this comment period, the Council is only seeking comments on the expanded scope of Amendment 8.

DATES: Written scoping comments must be received on or before 5 p.m., local time, September 30, 2015.

ADDRESSES: Written scoping comments may be sent by any of the following methods:

- Email to the following address: *comments@nefmc.org*;
- Mail to Thomas A. Nies, Executive Director, New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950; or
- Fax to (978) 465-3116.

- Please indicate "Herring Amendment 8 Re-Scoping Comment" on your correspondence.

Requests for copies of the Amendment 8 scoping document and other information should be directed to Thomas A. Nies, Executive Director, New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950, telephone (978) 465-0492. The scoping document is accessible electronically via the Internet at <http://www.nefmc.org>.

FOR FURTHER INFORMATION CONTACT: Thomas A. Nies, Executive Director, New England Fishery Management Council, (978) 465-0492.

SUPPLEMENTARY INFORMATION:

Background

The purpose of this notification is to alert the interested public of the Council's intent to expand the scope of Amendment 8 to consider localized depletion in inshore waters. In general, localized depletion is when harvesting takes more fish than can be replaced either locally or through fish migrating into the catch area within a given time period. The Council will consider input from the interested public as to how to define, measure, evaluate impacts, and minimize inshore, localized depletion in the herring fishery as part of the scoping process and during the development of Amendment 8.

Initially, the Council proposed Amendment 8 to further consider long-term harvest strategies for herring, including an allowable biological catch (ABC) control rule that addresses the biological needs of the herring resource and explicitly accounts for herring's role in the ecosystem. A detailed description of the background and need for Amendment 8 can be found in the original NOI dated February 26, 2015 (80 FR 10458).

At its June 2015 meeting, the Council reviewed scoping comments on Amendment 8 and considered goals and objectives for the amendment. The Council recommended the following goals for Amendment 8: (1) Account for the role of herring within the ecosystem, including its role as forage; (2) stabilize the fishery at a level designed to achieve optimum yield; and (3) address localized depletion in inshore waters. The Council also recommended that an objective for Amendment 8 be to develop and implement an ABC control rule that manages herring within an ecosystem context and addresses the goals of Amendment 8.

Public Comment

Scoping consists of identifying the range of actions, alternatives, and

impacts to be considered. During this comment period, the Council is only seeking comments on Amendment 8's consideration of localized depletion in inshore waters. All persons affected by or otherwise interested in herring management are encouraged to submit comments on the expanded scope of Amendment 8 by submitting written comments (see **ADDRESSES**) or by attending the supplemental scoping meeting for this amendment. The supplemental scoping meeting will be held during the afternoon of the Council's Herring Committee meeting on September 15, 2015, at the Hilton Garden Inn, 100 Boardman Street, Boston, MA 02128, (617) 567-6789.

After the scoping process is completed, the Council will continue development of Amendment 8 and preparation of an EIS to analyze the impacts of the range of alternatives under consideration. Impacts may be direct, individual, or cumulative. The public will also have the opportunity to comment during public meetings and public comment periods throughout the development of Amendment 8, consistent with the National Environmental Policy Act, the Magnuson-Stevens Fishery Conservation and Management Act, and the Administrative Procedure Act.

Special Accommodations

The meetings are accessible to people with physical disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies (see **ADDRESSES**) at least five days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 18, 2015.

Alan D. Risenhoover,

Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Proposed Addition and Deletion

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Proposed Addition to and Deletion from the Procurement List.

SUMMARY: The Committee is proposing to add a service to the Procurement List that will be provided by a nonprofit agency employing persons who are
