Issued at Washington, DC on August 17, 2015.

LaTanya R. Butler,*Deputy Committee Management Officer.*

[FR Doc. 2015-20710 Filed 8-20-15; 8:45 am]

BILLING CODE 6450-01-P**DEPARTMENT OF ENERGY****Federal Energy Regulatory Commission****[Docket No. PF15-26-000]**

Corpus Christi Liquefaction, LLC, Cheniere Corpus Christi Pipeline, L.P.; Notice of Intent To Prepare an Environmental Assessment for the Planned Stage 3 Project, and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Corpus Christi Liquefaction, LLC's (CCL's) and Cheniere Corpus Christi Pipeline, L.P.'s (CCPL's) Stage 3 Project (Project) involving the expansion of the liquefied natural gas (LNG) liquefaction and storage capacity of the previously approved Corpus Christi Liquefaction Project (Liquefaction Project) (Docket Nos. CP12-507-000 and CP12-508-000); and new associated bi-directional interstate natural gas pipeline facilities (Stage 3 Pipeline) in San Patricio County, Texas. The Commission will use this EA in its decision-making

process to determine whether the Project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the Project. You can make a difference by providing us with your specific comments or concerns about the Project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EA. The Commission staff will also use the scoping process to help determine whether preparation of an environmental impact statement is more appropriate for this Project based upon the potential significance of the anticipated levels of impact. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before September 16, 2015.

If you sent comments on this Project to the Commission before the opening of this docket on June 9, 2015, you will need to file those comments in Docket No. PF15-26-000 to ensure they are considered as part of this proceeding.

This notice is being sent to the Commission's current environmental mailing list for this Project. State and local government representatives should notify their constituents of this planned Project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the Project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (www.ferc.gov). This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings.
