NPEFS data are used for a wide variety of purposes, including to calculate federal program allocations such as states' "average per-pupil expenditure" (SPPE) for elementary and secondary education, certain formula grant programs (e.g. title I, part A of the Elementary and Secondary Education Act of 1965 (ESEA) as amended, Impact Aid, and Indian Education programs). Furthermore, other federal programs, such as the Educational Technology State Grants program (title II part D of the ESEA), the Education for Homeless Children and Youth Program under title VII of the McKinney-Vento Homeless Assistance Act, and the Teacher Quality State Grants program (title II part A of the ESEA) make use of SPPE data indirectly because their formulas are based, in whole or in part, on State title I part A allocations. This submission is to conduct the annual collection of state-level finance data for FY 2015–2017.

DEPARTMENT OF ENERGY

[**OE Docket No. EA–370–A**]

Application to Export Electric Energy; Vitol Inc.

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application.

SUMMARY: Vitol Inc. (Applicant or Vitol) has applied to renew its authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before September 23, 2015.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE–20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585–0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202–586–8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On December 13, 2010, DOE issued Order No. EA–370 to Vitol Inc., which authorized the Applicant to transmit electric energy from the United States to Canada as a power marketer for a five-year term using existing international transmission facilities. That authority expires on December 13, 2015. On August 6, 2015, Vitol filed an application with DOE for renewal of the export authority contained in Order No. EA–370 for an additional five-year term.

In its application, Vitol states that it does not own or operate any electric generation or transmission facilities, and it does not have a franchised service area. The electric energy that Vitol proposes to export to Canada would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by Vitol have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.
