II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Cooperation With States at Commercial Nuclear Power Plants and Other Nuclear Production and Utilization Facilities, Policy Statement.

2. *OMB approval number:* 3150–0163.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* N/A.

5. *How often the collection is required or requested:* On occasion, when a State or Tribe wishes to observe NRC inspection or perform inspections for the NRC or when a State or Tribe wishes to negotiate an agreement to observe or perform inspections. States with an agreement and State Resident Engineer have both regular reporting and occasion-specific reporting.

6. *Who will be required or asked to respond:* States and Tribes interested in observing or performing inspections.

7. *The estimated number of annual responses:* 248.

8. *The estimated number of annual respondents:* 36.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 815.

10. *Abstract:* States and Tribes are involved and interested in monitoring the safety status of nuclear power plants and radioactive materials. This involvement is, in part, in response to the States' and Tribes' public health and safety responsibilities and, in part, in response to their citizens' desire to become more knowledgeable about the safety of nuclear power plants and radioactive materials. States have identified NRC inspections as one possible source of knowledge for their personnel regarding plant and materials licensee activities, and the NRC, through the policy statement on Cooperation with States, has been amenable to accommodating the States' needs in this regard. Additionally, the NRC has been able to accommodate Tribal interests in the same way. The NRC has also entered into reimbursable Agreements with certain States under Section 274i of the Act, as amended, to employ their resources to conduct radioactive materials security inspections against NRC Orders.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 20th day of August, 2015.

For the Nuclear Regulatory Commission.
