SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington,

DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The Safe Drinking Water Act (SDWA), as amended in 1996, requires EPA to establish criteria for a program to monitor not more than 30 unregulated contaminants every five years. Information collected under the program supports Agency decision making regarding whether or not to regulate particular contaminants in drinking water. UCMR 3 addresses the third group of 30 contaminants and was published in the **Federal Register** on May 2, 2012.

UCMR 3 "Assessment Monitoring" began in January 2013 and continues through December 2015 for all large systems (those systems serving 10,001 to 100,000 people) and very large systems (those systems serving more than 100,000 people), and for a nationally representative sample of 800 small public water systems (PWSs) (those serving 10,000 or fewer people). The "Screening Survey" began in January 2013 and continues through December 2015 for all very large systems, 320 randomly-selected large systems, and 480 randomly selected small systems. "Pre-Screen Testing" began in January 2013 and continues through December 2015 for a sample of 800 very small (systems serving 1,000 or fewer people) undisinfected ground water systems.

Form Numbers: None.

Respondents/affected entities: Public Water Systems (PWSs) and States, territories and tribes with primacy to administer the regulatory program for PWSs under SDWA.

Respondent's obligation to respond: Mandatory. The information collection is carried out per Section 1445(a) of SDWA.

Estimated number of respondents: There are approximately 6,351 respondents to UCMR 3, including approximately 2,098 PWSs that will monitor during the ICR years of 2015–2017, and 56 states and primacy agents.

Frequency of response: On occasion.

Total estimated burden: 17,902 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$7,449,927 per year, including \$6,546,967 in non-labor costs.

Changes in the Estimates: There is a decrease of 22,765 hours in the total estimated respondent burden compared with the existing ICR. This decrease is an adjustment to estimates due to the reduced number of PWSs that have to

monitor during the ICR period of 2015–2017.

Courtney Kerwin,
Acting Director, Collection Strategies Division.
