BILLING CODE 4184-01-P

Description: The Office of Head Start within the Administration for Children and Families, United States Department of Health and Human Services, is proposing to renew authority to collect information on funding for the purchase, construction or renovation of facilities. All information is collected electronically through the Head Start Enterprise System (HSES). The information required is in conformance with Section 644 (f) and (g) of the Act. Federal funding officials use the information to determine that the proposed purchase has resulted in savings when compared to the costs that would be incurred to acquire the use of an alternative facility, or that the lack of alternative facilities will prevent, or would have prevented, the operation of the program. The rule further describes the assurances which are necessary to protect the Federal interest in real property and the conditions under which federal interest may be subordinated and protected when grantees make use of debt instruments when purchasing facilities. The information is used by funding officials to determine if grantee's arrangements adequately conform to other applicable statutes which apply to the expenditure of public funds for the purchase of real property.

Respondents: Head Start and Early Head Start program grant recipients.
