SUPPLEMENTARY INFORMATION:

Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA. This **SUPPLEMENTARY INFORMATION** section is arranged as follows:

- I. What is the background for this action?
- II. What action is EPA taking?
- III. Incorporation by Reference
- IV. Statutory and Executive Order Reviews

I. What is the background for this action?

Under section 128 of the CAA, each SIP must contain provisions that address two requirements: (i) That any board or body which approves permits or enforcement orders under this chapter shall have at least a majority of members who represent the public interest and do not derive any significant portion of their income from persons subject to permits and enforcement orders under this chapter, and (ii) that any potential conflicts of interest by members of such board or body or the head of an executive agency with similar powers be adequately disclosed. To comply with this statutory provision, MDEQ submitted rules from the Civil Service Rule at 2-8.3(a)(1) for incorporation into the SIP, pursuant to section 128 of the CAA. EPA's June 24, 2015, proposed rulemaking (see 80 FR 36306 at 36312) details how these rules satisfy the applicable requirements of section 128. EPA did not receive any comments regarding its proposal to approve Michigan's state board provisions.

II. What action is EPA taking?

For the reasons discussed in our June 24, 2015, proposed rulemaking, EPA is taking final action to approve MDEQ's submissions addressing the state board requirements under section 128 of the CAA. The specific rule that we are approving as satisfying these requirements is Civil Service Rule at 2-8.3(a)(1). It should be noted that our June 24, 2015, rulemaking contained proposed actions for various additional MDEQ submissions. This final rulemaking, however, is limited only to the state board requirements under section 128 of the CAA.

III. Incorporation by Reference

In this rule, EPA is finalizing regulatory text that includes incorporation by reference. In
