Instructions: Direct your comments to Docket ID No. EPA-R09-OAR-2014-0256. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information the disclosure of which is restricted by statute. Do not submit information through www.regulations.gov or email that you consider to be CBI or otherwise protected from disclosure. The www.regulations.gov Web site is an anonymous access system, which means the EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to the EPA without going through www.regulations.gov, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, the EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If the EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, the EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically in www.regulations.gov or in hard copy at the Air Planning Office (AIR-2), U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, California 94105. The EPA requests that if at all possible, you contact the person listed in the **FOR**

FURTHER INFORMATION CONTACT section to schedule your inspection during normal business hours.

FOR FURTHER INFORMATION CONTACT: Jeffrey Buss, Office of Air Planning, U.S. Environmental Protection Agency, Region 9, (415) 947-4152, email: buss.jeffrey@epa.gov.

SUPPLEMENTARY INFORMATION: In the "Rules and Regulations" section of this **Federal Register**, the EPA is approving the State of Arizona's Stage II vapor recovery SIP revision in a direct final action without prior proposal because we believe this SIP revision is not controversial. A detailed rationale for the approval is set forth in the direct final rule. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in a subsequent final rule based on this proposed rule. Please note that if the EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, the EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, see please see the direct final action.

Medicare Program; End-Stage Renal Disease Prospective Payment System; Correction

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Correction.

SUMMARY: This document corrects a technical error that appeared in the

proposed rule published in the **Federal Register** on July 1, 2015, entitled "Medicare Program; End-Stage Renal Disease Prospective Payment System, and Quality Incentive Program."

DATES: This correction is effective on September 2, 2015.

FOR FURTHER INFORMATION CONTACT: Michelle Cruse, (410) 786-7540.

SUPPLEMENTARY INFORMATION:

I. Background

In FR Doc. 2015-16074 of July 1, 2015 (80 FR 37808) there was a technical error that is discussed in the "Summary of Errors," and further identified and corrected in the "Correction of Errors" section below. The provisions in this correction document are effective as if they had been included in the document published on July 1, 2015. Accordingly, the corrections are effective September 2, 2015.

II. Summary of Errors

On page 37814 of the preamble, we discovered an error in the reference to the cost report column from which we derived the data for one of the dependent variables used in developing the two-equation regression methodology that we performed to analyze and propose revisions to the End-Stage Renal Disease (ESRD) Prospective Payment System (PPS) payment adjusters for Calendar Year (CY) 2016 ESRD PPS proposed rule. Specifically, we measured resource use of the maintenance dialysis services included in the current bundle of composite rate services using only ESRD facility data obtained from the Medicare cost reports for independent ESRD facilities and hospital-based ESRD facilities. We indicated in the proposed rule that for independent ESRD facilities, the average composite rate cost per treatment for each ESRD facility was calculated by dividing the total reported allowable costs for composite rate services for cost reporting periods ending in CYs 2012 and 2013 (Worksheet B, column 13A, lines 8-17 on CMS-265-11; Worksheet I-2, column 11, lines 2-11 on CMS-2552-10) by the total number of dialysis treatments (Worksheet C, column 1, lines 8-17 on CMS 265-11). In the CY 2016 ESRD PPS proposed rule, we incorrectly referred to column 13A when we intended to refer to column 11A in Worksheet B. Therefore, we are publishing this correction notice to include the appropriate location for the average composite rate cost per treatment.

III. Waiver of 60-Day Comment Period

We ordinarily permit a 60-day comment period on notices of proposed rulemaking in the **Federal Register**, as provided in section 1871(b)(1) of the Act. However, this period may be shortened, as provided under section 1871(b)(2)(C) of the Act, when the Secretary finds good cause that a 60-day comment period would be impracticable, unnecessary, or contrary to the public interest, and incorporates a statement of the finding and its reasons in the rule issued. Because the correction in this document does not make any changes to the substantive policies proposed in the CY 2016 ESRD PPS proposed rule, but merely corrects the reference to a column in the preamble of the proposed rule, this correcting document does not constitute agency rulemaking and therefore, the 60-day comment period does not apply.

In addition, we believe it is important for the public to have the corrected information as soon as possible and find no reason to delay dissemination of it.

For the reasons stated previously, we find it both unnecessary and contrary to the public interest to undertake further notice and comment procedures with respect to this correcting document.

IV. Correction of Errors

In FR Doc. 2015–16074 of July 1, 2015 (80 FR 37808), make the following corrections:

- 1. On page 37814, second column, second full paragraph, in line 16, the reference to “13A” is corrected to read “11A”.

Magnuson-Stevens Act Provisions; Fisheries Off West Coast States; Pacific Coast Groundfish Fishery; Process for Divestiture of Excess Quota Shares in the Individual Fishing Quota Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule, request for comments.

SUMMARY: In January 2011, NMFS implemented the groundfish trawl rationalization program (a catch share program) for the Pacific coast groundfish limited entry trawl fishery. The program was implemented through Amendment 20 to the Pacific Coast Groundfish Fishery Management Plan and the corresponding implementing regulations. Amendment 20 established the trawl rationalization program, which includes an Individual Fishing Quota program for limited entry trawl participants. Under current regulations, quota share (QS) permit owners must divest quota share holdings that exceed accumulation limits by November 30, 2015. This proposed action would make minor procedural modifications to the program regulations to clarify how divestiture and revocation of excess quota share could occur in November, 2015, and establish procedures applicable in the future if divestiture becomes necessary.

DATES: Comments on this proposed rule must be received on or before October 2, 2015.

ADDRESSES: You may submit comments on this document, identified by NOAA–NMFS–2015–0086, by any of the following methods:

- *Electronic Submission:* Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2015-0086, click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

- *Mail:* Submit written comments to William W. Stelle, Jr., Regional Administrator, West Coast Region, NMFS, 7600 Sand Point Way NE., Seattle, WA 98115–0070; Attn: Colby Brady.
