SUPPLEMENTARY INFORMATION:

I. Background

MCSAC

Section 4144 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU, Pub. L. 109-59, 119 Stat. 1144, August 10, 2005) required the Secretary of Transportation to establish the MCSAC. The Moving Ahead for Progress in the 21st Century Act (MAP-21, Pub. L. 112-141) reauthorized the MCSAC through September 30, 2013, at which time its statutory authority expired, necessitating the establishment of MCSAC as a discretionary committee under FACA. Secretary Foxx established that effective September 30, 2013, through September 30, 2015. MCSAC provides advice and recommendations to the FMCSA Administrator on motor carrier safety programs and regulations, and operates in accordance with the Federal Advisory Committee Act (FACA, 5 U.S.C. App 2).

MRB

Section 4116 of SAFETEA-LU requires the Secretary of Transportation, with the advice of the MRB and the chief medical examiner, to establish, review, and revise "medical standards for operators of commercial motor vehicles that will ensure that the physical condition of operators of commercial motor vehicles is adequate to enable them to operate the vehicles safely." The MRB operates in accordance with FACA under the terms of its charter, filed November 25, 2013.

II. Meeting Participation

Oral comments from the public will be heard throughout the meeting, at the

discretion of the MCSAC and MRB chairmen. Members of the public may submit written comments on the topics to be considered during the meeting by Wednesday, September 16, to Federal Docket Management System (FDMS) Docket Number FMCSA-2008-0362 for the MRB and FMCSA-2006-26367 for the MCSAC using any of the following methods:

[Docket No. FMCSA-2012-0032]

Commercial Driver's License Standards: Application for Exemption; Daimler Trucks North America (Daimler)

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: FMCSA announces that Daimler Trucks North America (Daimler) has requested an exemption for one commercial motor vehicle (CMV) driver, Philipp Kehm, from the Federal requirement to hold a commercial driver's license (CDL) issued by one of the States. This engineer holds a valid German CDL and needs to test-drive Daimler vehicles on U.S. roads to better understand product requirements for these systems in "real world" environments, and verify results. Daimler believes the requirements for a German CDL ensure that holders of the license will likely achieve a level of safety equal to or greater than that of drivers who hold a U.S. State-issued CDL.

DATES: Comments must be received on or before October 5, 2015.

ADDRESSES: You may submit comments identified by Federal Docket Management System Number FMCSA–2012–0032 by any of the following methods:

- *Federal eRulemaking Portal:* www.regulations.gov. Follow the online instructions for submitting comments.
- *Fax:* 1–202–493–2251.
- *Mail:* Docket Management Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building, Ground Floor, Room W12–140, Washington, DC 20590–0001.
- *Hand Delivery or Courier:* West Building, Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., between 9 a.m. and 5 p.m. E.T., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

FMCSA has authority under 49 U.S.C. 31136(e) and 31315 to grant exemptions from the Federal Motor Carrier Safety Regulations. FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews the safety analyses and the public comments, and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The decision of the Agency must be published in the **Federal Register** (49 CFR 381.315(b)) with the reason for granting or denying the exemption, and, if granted, the specific person or class of persons receiving the exemption, and the regulatory provision or provisions from which exemption is granted. The notice must specify the effective period of the exemption (up to 2 years), and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

Since 2012, FMCSA has granted five Daimler drivers similar exemptions [May 25, 2012 (77 FR 31422); July 22, 2014 (79 FR 42626); August 29, 2014 (79 FR 516910); March 27, 2015 (80 FR 16511)]. Each of these drivers held a valid German commercial license but lacked the U.S. residency required to obtain a CDL. FMCSA has concluded that the process for obtaining a German commercial license is comparable to or as effective as the U.S. CDL requirements and ensures that these drivers will likely achieve a level of safety equivalent to or greater than the level that would be obtained in the absence of the exemption.

Request for Exemption

Daimler has applied for an exemption for one of its engineers from 49 CFR 383.23, which prescribes licensing requirements for drivers operating CMVs in interstate or intrastate commerce. This driver, Philipp Kehm, holds a valid German commercial license but is unable to obtain a CDL in any of the U.S. States due to residency requirements. A copy of the application is in Docket No. FMCSA–2012–0032.

The exemption would allow Mr. Kehm to operate CMVs in interstate or intrastate commerce to support Daimler field tests designed to meet future

vehicle safety and environmental requirements and to develop improved safety and emission technologies. According to Daimler, Mr. Kehm will typically drive for no more than 6 hours per day for up to 10 days, and 10 percent of the test driving will be on two-lane State highways, while 90 percent will be on interstate highways. The driving will consist of no more than 200 miles per day, on a biannual basis. He will in all cases be accompanied by a holder of a U.S. CDL who is familiar with the routes to be traveled. Daimler requests that the exemption cover a two-year period.

FMCSA has previously determined that the process for obtaining a German CDL is comparable to the Federal requirements of 49 CFR part 383 and adequately assesses a driver’s ability to operate CMVs in the United States.

Request for Comments

In accordance with 49 U.S.C. 31315(b)(4) and 31136(e), FMCSA requests public comment on Daimler’s application for an exemption from the CDL requirements of 49 CFR 383.23. The Agency will consider all comments received by close of business on October 5, 2015. Comments will be available for examination in the docket at the location listed under the **ADDRESSES** section of this notice.
