#### SUPPLEMENTARY INFORMATION:

##### I. Background

###### MCSAC

Section 4144 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU, Pub. L. 109-59, 119 Stat. 1144, August 10, 2005) required the Secretary of Transportation to establish the MCSAC. The Moving Ahead for Progress in the 21st Century Act (MAP-21, Pub. L. 112-141) reauthorized the MCSAC through September 30, 2013, at which time its statutory authority expired, necessitating the establishment of MCSAC as a discretionary committee under FACA. Secretary Foxx established that effective September 30, 2013, through September 30, 2015. MCSAC provides advice and recommendations to the FMCSA Administrator on motor carrier safety programs and regulations, and operates in accordance with the Federal Advisory Committee Act (FACA, 5 U.S.C. App 2).

###### MRB

Section 4116 of SAFETEA-LU requires the Secretary of Transportation, with the advice of the MRB and the chief medical examiner, to establish, review, and revise "medical standards for operators of commercial motor vehicles that will ensure that the physical condition of operators of commercial motor vehicles is adequate to enable them to operate the vehicles safely." The MRB operates in accordance with FACA under the terms of its charter, filed November 25, 2013.

[Docket No. FMCSA-2012-0032]

#### Commercial Driver's License Standards: Application for Exemption; Daimler Trucks North America (Daimler)

**AGENCY:** Federal Motor Carrier Safety Administration (FMCSA), DOT.

**ACTION:** Notice of application for exemption; request for comments.

**SUMMARY:** FMCSA announces that Daimler Trucks North America (Daimler) has requested an exemption for one commercial motor vehicle (CMV) driver, Philipp Kehm, from the Federal requirement to hold a commercial driver's license (CDL) issued by one of the States. This engineer holds a valid German CDL and needs to test-drive Daimler vehicles on U.S. roads to better understand product requirements for these systems in "real world" environments, and verify results. Daimler believes the requirements for a German CDL ensure that holders of the license will likely achieve a level of safety equal to or greater than that of drivers who hold a U.S. State-issued CDL.

**DATES:** Comments must be received on or before October 5, 2015.
