

introduced into or disseminated within the United States.

Section 319.56–4 contains a performance-based process for approving the importation of certain fruits and vegetables that, based on the findings of a pest risk analysis, can be safely imported subject to one or more of the designated phytosanitary measures listed in paragraph (b) of that section.

In accordance with that process, we published a notice¹ in the **Federal Register** on March 12, 2015 (80 FR 12976–12977, Docket No. APHIS–2015–0001), in which we announced the availability, for review and comment, of a pest risk assessment (PRA) that identifies pests of quarantine significance that could follow the pathway of importation of cranberries from Chile into the continental United States. Based on the PRA, a risk management document (RMD) was prepared to identify phytosanitary measures that could be applied to the cranberries to mitigate the pest risk.

We solicited comments on the PRA and RMD for 60 days, ending on May 11, 2015. We received six comments by that date, from an organization of State plant regulatory agencies, importers, the Chilean Government, and private citizens. All comments we received supported the importation of cranberries from Chile into the continental United States.

Therefore, in accordance with § 319.56–4(c)(2)(ii), we are announcing our decision to authorize the importation of cranberries from Chile into the continental United States subject to the following phytosanitary measures:

- The cranberries must be imported as commercial consignments only;
- Each consignment of cranberries must be accompanied by a phytosanitary certificate issued by the national plant protection organization of Chile; and
- Each consignment of cranberries is subject to inspection upon arrival at the port of entry to the United States.

These conditions will be listed in the Fruits and Vegetables Import Requirements database (available at <http://www.aphis.usda.gov/favir>). In addition to these specific measures, cranberries from Chile will be subject to the general requirements listed in § 319.56–3 that are applicable to the importation of all fruits and vegetables.

Done in Washington, DC, this 2nd day of September 2015.

Michael C. Gregoire,

Acting Administrator, Animal and Plant Health Inspection Service.
