

in the Commission's toy standard, ASTM F963-11. For more information on the ASTM wood determination, please see the July 17, 2015 direct final rule (80 FR 42376).

In the July 17, 2015 direct final rule, the CPSC stated that if CPSC received significant adverse comments by August 17, 2015, the rule would be withdrawn and not take effect. The CPSC received significant adverse comments. Therefore, the CPSC is withdrawing the direct final rule. The CPSC will address these comments in a separate final action based on the July 17, 2015 notice of proposed rulemaking (80 FR 42378) published in the same issue of the **Federal Register**. The CPSC will not institute a second comment period on this action.

Dated: September 4, 2015.

Todd A. Stevenson,

Secretary, Consumer Product Safety Commission.

RIN 1625-AB37

Marine Vapor Control Systems

AGENCY: Coast Guard, DHS.

ACTION: Final rule; information collection approval.

SUMMARY: The Coast Guard announces that the Office of Management and Budget (OMB) has approved the amendment of an existing collection of information, as requested by the Coast Guard and described in the final rule published on July 16, 2013. The final rule revised safety regulations for facility and vessel vapor control systems (VCSs) to promote safe VCS operation in an expanded range of activities now subject to current Federal and State environmental requirements, reflect industry advances in VCS technology, and codify the standards for the design and operation of a VCS at tank barge cleaning facilities. The revised regulations increase operational safety by regulating the design, installation, and use of VCSs, but they do not require anyone to install or use VCSs. The OMB must approve any regulatory provisions that constitute a collection of

information under the Paperwork Reduction Act, before an agency can enforce those provisions. Having received OMB's approval, the Coast Guard will now enforce collection of information requirements in the final rule. This rulemaking promotes the Coast Guard's maritime safety and stewardship missions.

DATES: The collection of information requirements contained in the July 16, 2013 final rule (78 FR 42596) and approved by the OMB as an amendment to existing collection of information, control number 1625-0060, will be enforced beginning September 10, 2015. The requirements include provisions for VCS certifications, recertifications, periodic operational reviews, approval requests, reviews of operating manuals, failure analyses, operational review letters, and relabeling. These requirements aid the Coast Guard and industry in ensuring industry's regulatory compliance and safe practices in connection with VCSs.

FOR FURTHER INFORMATION CONTACT: For information about this document, call or email Dr. Cynthia Znati, Office of Design and Engineering Standards, U.S. Coast Guard; telephone 202-372-1412, email hazmatstandards@uscg.mil. For information about viewing or submitting material to the docket, call Cheryl Collins, Program Manager, Docket Operations, telephone 202-366-9826, toll free 1-800-647-5527.

SUPPLEMENTARY INFORMATION: The Coast Guard's final rule, 78 FR 42596 (July 16, 2013), contained information collection provisions that cannot be enforced against any member of the public until OMB approves those provisions and assigns one or more OMB control numbers. The OMB has now approved those provisions and assigned OMB Control Number 1625-0060, and the Coast Guard will enforce them beginning September 10, 2015.

RIN 2137-AE99

Hazardous Materials: Special Permit and Approvals Standard Operating Procedures and Evaluation Process

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: Final rule.

SUMMARY: PHMSA is adopting regulations to include the standard operating procedures (SOPs) and criteria used to evaluate applications for special permits and approvals. This rulemaking addresses issues identified in the Hazardous Materials Transportation Safety Improvement Act of 2012 related to the Office of Hazardous Materials Safety's Approvals and Permits Division. In addition, this rulemaking also provides clarity regarding what conditions need to be satisfied to promote special permit application completeness. An application that contains the required information reduces processing delays by reducing the number of applications rejected due to incompleteness. Through public notice and comment, this final rule is required to establish SOPs to support the administration of the special permit and approval programs, and objective criteria to support the evaluation of special permit and approval applications. These amendments do not change previously established policies, to include but not limited to any inspection activities subsequent to issuance, modification or renewal of a special permit and approval.

DATES: The final rule is effective on November 9, 2015.

FOR FURTHER INFORMATION CONTACT: Ryan Paquet or Donald Burger, Office of Hazardous Materials Safety, Approvals and Permits Division, (202) 366-4511, Pipeline and Hazardous Materials Safety Administration (PHMSA), 1200 New Jersey Avenue SE., Washington, DC 20590.
