

SUPPLEMENTARY INFORMATION: On October 1, 2014, the Small Business Administration (SBA)'s Office of Entrepreneurial Development (OED) began the ScaleUp America initiative to expand the delivery of proven best practices in entrepreneurship education to reach more growth-oriented small business owners. Through this initiative, organizations in eight communities across the U.S. have been selected to deliver targeted and intensive assistance to established, growth-oriented small businesses and entrepreneurs. ScaleUp program goals include the growth of participating businesses, the strengthening of local entrepreneurial ecosystems (e.g. the network of supportive resources available to the entrepreneur), and the creation of jobs and economic growth in targeted communities.

SBA is conducting an evaluation of the ScaleUp America initiative to assess the education services provided to the participants, the effect of the assistance on achieving the business goals of the participants, participant satisfaction with the assistance, and lessons learned and recommendations provided by the participants. Through the quarterly and annual reports provided by ScaleUp administrators, SBA has the ability to collect some data on the participants and program activities. However, in order to develop a more systematic analysis on the full range of topics mentioned above, including the participants' feedback, SBA needs to collect survey and interview data from participants who attended the program, as well as from individual entrepreneurs who are recruited as members of a community-specific comparison group.

Specifically, SBA proposes the use of four instruments for data collection and analysis. These instruments are: (1) Participant Intake Survey, (2) Comparison Group Member Intake Survey and (3) Participant Follow-up Survey. SBA plans to administer each of these survey instruments to more than nine individuals. In addition, SBA plans to interview two participants or community members in each of the eight ScaleUp communities regarding program impact and successes or challenges.

Each of the proposed surveys will be administered electronically and will contain both open- and close-ended questions. The types of information that will be collected in the instruments can be found in the "Summary of Information Collection" section below. Quantitative analysis (the primary method of data analysis for the survey data) and qualitative analysis (the primary method of data analysis for the

interview data) will be used on the data collected. Quantitative analysis will consist of univariate and multivariate statistical analyses, while qualitative analysis will consist of establishing clear rules for interpretation and finding themes in the qualitative data. The information collected and analyzed from these instruments will contribute to performance metrics and program goals, as well as recommendations on improving program practices.

Solicitation of Public Comments: Comments may be submitted on (a) whether the collection of information is necessary for the agency to properly perform its functions; (b) whether the burden estimates are accurate; (c) whether there are ways to minimize the burden, including through the use of automated techniques or other forms of information technology; and (d) whether there are ways to enhance the quality, utility, and clarity of the information.

Federal Transit Administration

Pilot Program for Transit-Oriented Development Planning Project Selections

AGENCY: Federal Transit Administration, DOT.

ACTION: Pilot program for transit-oriented development planning announcement of project selections.

SUMMARY: The U.S. Department of Transportation's (DOT) Federal Transit Administration (FTA) announces the selection of projects for Fiscal Year 2013 and 2014 funds under the Pilot Program for Transit-Oriented Development Planning, as authorized under Section 20005(b) of the Moving Ahead for Progress in the 21st Century Act (MAP-21), Public Law 112-141. On September 4, 2014, FTA published a Notice of Funding Availability (NOFA) (79 FR 171) announcing the availability of \$19.98 million in funding for this program. This program supports comprehensive planning efforts associated with new fixed guideway and core capacity improvement projects to assist project sponsors in the development of information to address FTA's Capital Investment Grant (CIG) Program evaluation criteria.

FOR FURTHER INFORMATION CONTACT: Successful applicants should contact the appropriate FTA Regional Office for information regarding applying for the

funds. For program-specific information, applicants may contact Benjamin Owen, FTA Office of Planning and Environment, at (202) 366-5602 or benjamin.owen@dot.gov. A list of Regional Offices can be found at www.fta.dot.gov. A TDD is available at 1-800-877-8339 (TDD/FIRS).

SUPPLEMENTARY INFORMATION: In response to the NOFA, FTA received 28 project proposals from project sponsors located in 20 States. Project proposals were evaluated based on each applicant's responsiveness to the program evaluation criteria as detailed in the NOFA. Four of the 28 projects were deemed ineligible to receive funds because they did not meet the eligibility requirements described in the NOFA. Two of the 28 projects were cancelled by the project sponsors during the course of the evaluation process, and a third was under review by local decision-makers for possible cancellation or advancement, but with a significantly altered project scope. The remaining 21 projects were eligible and

consistent with the goals of the NOFA, and FTA is funding each of these projects as shown in Table I for a total of \$19.49 million.

Grantees selected for competitive discretionary funding should work with their FTA Regional Office to submit a grant application in FTA's electronic grants management system so that funds can be obligated expeditiously. Grant applications must only include eligible activities applied for in the original project application. Funds must be used consistent with the competitive proposal and for the eligible purposes established in the NOFA and described in FTA Circulars 5010 and 9300.1B. In cases where the allocation amount is less than the proposer's requested amount, grantees should work with FTA's Office of Planning and Environment to reduce the work scope appropriately such that the intent of the original proposal will be accomplished. Grantees are reminded that program requirements are detailed in the NOFA. The maximum Federal funding share for this program is 80 percent. A

discretionary project identification number has been assigned to each project for tracking purposes and must be used in the grant application. FTA is not extending pre-award authority for selected projects prior to grant awards. Local funds must be committed and grants awarded by September 30, 2016. Post-award reporting requirements include submission of the Federal Financial Report and Milestone reports in FTA's electronic grants management system as appropriate (see FTA Circulars 5010.1D and 9030.1E). The grantees must comply with all applicable Federal statutes, regulations, executive orders, FTA circulars, and other Federal requirements in carrying out the project supported by the FTA grant. FTA emphasizes that grantees must follow all third-party procurement guidance, as described in FTA.C.4220.1F. Funds allocated in this announcement must be obligated in a grant by September 30, 2016.

Therese W. McMillan,
Acting Administrator.
