

which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Form Numbers: None.

Respondents/affected entities: Asphalt processing and asphalt roofing manufacturing facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart LLLLL).

Estimated number of respondents: 27 (total).

Frequency of response: Initially, occasionally and semiannually.

Total estimated burden: 13,400 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,480,000 (per year), which includes \$135,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in labor hours and number of responses as currently identified in the OMB Inventory of Approved Burdens. This decrease is not due to any program changes. The estimates decreased because we do not expect additional sources to become subject to the standard during the next three years. However, the O&M cost increased because we have updated the ongoing maintenance cost to maintain PM control devices. The information was obtained from consultation with trade associations and internal EPA experts during the renewal of this ICR.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Oil and Natural Gas Production and Natural Gas Transmission and Distribution (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), "NSPS for Oil and Natural Gas Production and Natural Gas Transmission and Distribution (40 CFR part 60, subpart OOOO) (Renewal)" (EPA ICR No. 2437.03, OMB Control No. 2060-0673) to the Office of Management

and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through September 30, 2015. Public comments were previously requested via the **Federal Register** (79 FR 30117) on May 27, 2014 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before October 21, 2015.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2014-0102, to (1) EPA online using www.regulations.gov (our preferred method), by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Abstract: The NSPS covers the requirements at Subpart OOOO. The existing provisions of Subparts KKK/LLL will be included in this subpart along with the new proposed provisions for the following affected facilities: Gas wellheads, pneumatic controllers, centrifugal and reciprocating compressors, and storage vessels. The oil and natural gas sector includes operations involved in the extraction and production of oil and natural gas, as well as the processing, transmission, and distribution of natural gas. The potential respondents are owners or operators of oil and gas affected facilities found throughout these industry segments. We estimate 500 entities will be affected by this NSPS.

Form Numbers: None.

Respondents/affected entities: Oil and natural gas production and natural gas transmission and distribution facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart OOOO).

Estimated number of respondents: 596 (total).

Frequency of response: Initially, semiannually and annually.

Total estimated burden: 93,900 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$11,200,000 (per year), includes \$1,750,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase in the total estimated respondent burden and total annual O&M as currently identified in the OMB Inventory of Approved Burdens. This burden increase is due to adjustments EPA has made to account for industry growth that has occurred since the ICR was last approved.

EPA has also revised the respondent burden associated with compressor notifications and storage vessel annual reports. The previous ICR assumed respondents would submit initial notifications for affected centrifugal and reciprocating compressors. These sources, however, are not subject to initial notification requirements, thus we have removed them from the burden calculations. For storage vessels, the previous ICR assumed respondents would complete an individual report for each affected storage vessel. The rule, however, allows respondents to submit a single report for all affected storage vessels at their site. EPA's experience has been that respondents typically consolidate reporting activities in order to reduce the overall reporting burden. For this reason, we have revised the

burden calculations to assume each respondent will submit a single report.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the General Provisions specified at 40 CFR part 63, subpart JJJJ. Owners or operators of the affected facilities must submit initial notification, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative.

Form Numbers: None.

Respondents/affected entities: Paper and other web coating facilities.

Respondent’s obligation to respond: Mandatory (40 CFR part 63, subpart JJJJ).

Estimated number of respondents: 251 (total).

Frequency of response: Initially, occasionally and semiannually.

Total estimated burden: 13,800 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$2,390,000 (per year), includes \$1,010,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the respondent and Agency burden, including the respondent O&M cost. The increase is not due to any program changes. Rather, it is due to an increase in the estimated

number of sources subject to the rule. Based on information from previous ICR renewals and past industry analyses conducted by the Agency, we assume a linear growth rate of 6 new sources per year for this sector. The growth in the number of sources subject to this NESHAP results in an increase in the total estimated burden hours and costs.
