

10235, Washington, DC 20503; (202) 395-7316.

**FOR FURTHER INFORMATION CONTACT:** Mr. Michael McDonald, General Counsel at [gencounsel@neh.gov](mailto:gencounsel@neh.gov) or by mail to 400 7th Street SW., 4th Floor, Washington, DC 20506.

**SUPPLEMENTARY INFORMATION:**

*Title:* Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

*Abstract:* NEH is submitting a new information collection—in the form of a generic clearance—that will allow NEH to receive fast-track approval from OMB when NEH wishes to seek feedback from the public about NEH events and programs. With this generic clearance NEH will be able to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery by Federal agencies to the public. By qualitative feedback we mean information that provides useful insights on people's opinions of NEH programs, events, publications, products and other services NEH provides to the public. This qualitative feedback will:

- Provide NEH with insights into customer or stakeholder perceptions, experiences and expectations,
- Provide NEH with an early warning of issues with service, and
- Focus agency attention on areas where communication, training or changes in operations might improve delivery of NEH products or services.

NEH will solicit feedback in areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. NEH will use the responses to plan and to improve the quality of service and programs offered to the public.

For every customer survey or other information collection under this generic clearance, NEH will use the information gathered internally only for general service improvement and program management purposes and does not intend to release the information outside of the agency. NEH will not gather information for the purpose of substantially informing influential policy decisions. NEH will only gather data in a way designed to yield qualitative information, not statistically reliable results or results meant to be generalizable to the population of study.

NEH received no comments in response to the 60-day notice published in the **Federal Register** on July 2, 2015 (80 FR 38235).

*Current Actions:* New collection of information.

*Type of Review:* New Collection.

*Affected Public:* Individuals and Households, Businesses and Organizations, State, Local or Tribal Governments.

Below we provide NEH's projected average estimates for the next three years. The formula used to calculate the total burden hours is "estimated average time per responses" times "annual responses."

*Average Expected Annual Number of Activities:* 4.

*Estimated Number of Respondents:* 10,000.

*Estimated Annual Number of Responses per Respondent:* Once per request.

*Estimated Total Annual Responses:* 10,000.

*Estimated Average Time per Response:* 15 minutes (0.25 hours).

*Estimated Total Annual Burden Hours:* 2,500 hours.

NEH is requesting OMB approval for three years. There are no costs to respondents other than their time.

Dated: September 16, 2015.

**Margaret F. Plympton,**

*Deputy Chairman.*

## NATIONAL SCIENCE FOUNDATION

### Advisory Committee for Engineering; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub., L. 92-463, as amended), the National Science Foundation announces the following meeting:

**NAME:** Advisory Committee for Engineering #1170.

**DATE/TIME:** October 21, 2015: 12:00 p.m. to 5:15 p.m. October 22, 2015: 8:30 a.m. to 12:45 p.m.

**PLACE:** National Science Foundation, 4201 Wilson Boulevard, Suite 1235, Arlington, Virginia 22230.

**TYPE OF MEETING:** OPEN.

**CONTACT PERSON:** Evette Rollins, National Science Foundation, 4201 Wilson Boulevard, Suite 505, Arlington, Virginia 22230; 703-292-8300.

**PURPOSE OF MEETING:** To provide advice, recommendations and counsel on major goals and policies pertaining to engineering programs and activities.

#### Agenda

*Wednesday, October 21, 2015*

- Directorate for Engineering Report

- Civil, Mechanical and Manufacturing Innovation Overview
- CMMI Committee of Visitors Report
- Engineering Education and Revolutionizing Engineering Departments Update
- Broader Impacts

*Thursday, April 16, 2015*

- Perspectives from the Office of the Director
- The Future of Center-scale Multidisciplinary Engineering Research
- Chemical, Bioengineering, Environmental and Transport Systems Overview
- CBET Committee of Visitors Report
- Roundtable on ENG Strategic Activities and Recommendations

Dated: September 17, 2015.

**Crystal Robinson,**

*Committee Management Officer.*

**BILLING CODE 7555-01-P**

## NATIONAL SCIENCE FOUNDATION

### Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978 (Pub. L. 95-541)

**AGENCY:** National Science Foundation.

**ACTION:** Notice of Permit Applications Received under the Antarctic Conservation Act of 1978, (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996 (Pub. L. 104-227).

**SUMMARY:** The National Science Foundation (NSF) is required to publish a notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at title 45 part 670 of the Code of Federal Regulations. This is the required notice of permit applications received.

**DATES:** Interested parties are invited to submit written data, comments, or views with respect to this permit application by October 22, 2015. This application may be inspected by interested parties at the Permit Office, address below.

**ADDRESSES:** Comments should be addressed to Permit Office, Room 755, Division of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

**FOR FURTHER INFORMATION CONTACT:** Polly A. Penhale, Environmental Officer, at the above address or [ACApermits@nsf.gov](mailto:ACApermits@nsf.gov) or (703) 292-7149.

**SUPPLEMENTARY INFORMATION:** The National Science Foundation, as

directed by the Antarctic Conservation Act of 1978 (Public Law 95–541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

#### Application Details

*Permit Application: 2015–012*

1. *Applicant:* Dr. Stephanie Jenouvrier, Woods Hole Oceanographic Institution, Woods Hole, MA 02453.

*Activity for Which Permit is Requested:* The applicant intends to collect a multi-scale and temporal baseline data set on the largest cluster of Adelie penguin breeding colonies in the Antarctic Peninsula (AP). The area near the Danger Islands in the Weddell Sea (eastern AP) may account for half of the total breeding population of Adelie penguins in the AP, yet these colonies are little known. Penguin population shifts have been documented in the western AP and this study will help reduce uncertainty for the eastern AP populations.

*Take, Import, Enter Antarctic Specially Protected Areas:* The applicant intends to obtain small samples of blood, tissue, feathers, and eggshells from Macaroni, Gentoo, Chinstrap, and Adélie penguin colonies the Antarctic Peninsula. Organic remains in soil samples will also be collected. Samples taken at the sites will be sent back to the United States and the United Kingdom for analysis. The breeding sites will be censused by ground or by a hexacopters-based aerial photography system.

*Location:* The focus of the study is the penguin colonies in the Danger Islands, Antarctic Sounds, Antarctic Peninsula. Should weather conditions preclude this area, the focus will shift to Elephant Island and vicinity, Low Island and vicinity and/or the South Shetland Islands. Visits may include the following ASPA's: ASPA No. 151, Lions Rump, King George Is; ASPA No. 126, Byers Peninsula, Livingston Island; ASPA No. 152, West Bransfield, Low Island; ASPA No. 132, Potter Peninsula; ASPA No. 128, West Admiralty Bay; ASPA No. 150, Ardley Island; ASPA No. 133, Harmony Point; and ASPA No. 149, Cape Shirreff.

*Dates:* 1 December 2015 through 30 June 2016.

**Nadene G. Kennedy,**  
*Polar Coordination Specialist, Division of Polar Programs.*

#### NATIONAL SCIENCE FOUNDATION

##### Notice of Permit Modification Received Under the Antarctic Conservation Act of 1978

**AGENCY:** National Science Foundation.

**ACTION:** Notice of Permit Modification Request Received and Permit Issued under the Antarctic Conservation Act of 1978, Public Law 95–541.

**SUMMARY:** The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated and permits issued under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 Part 671 of the Code of Federal Regulations. This is the required notice of a requested permit modification and permit issued.

**DATES:** September 16, 2015 to March 15, 2016.

**FOR FURTHER INFORMATION CONTACT:** Li Ling Hamady, ACA Permit Officer, Division of Polar Programs, Rm. 755, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230. Or by email: [ACApermits@nsf.gov](mailto:ACApermits@nsf.gov)

**SUPPLEMENTARY INFORMATION:** The Foundation issued a permit (ACA 2012–WM–001) to Dr. George Watters on September 29, 2011. The issued permit allows the applicant to run a field camp including deployment of instruments (radio tags on animals) and use of hazardous materials including radio isotopes. A recent modification to this permit, dated December 21, 2013, permitted the applicant to install up to 12 remote, autonomous, and easily removable camera systems near breeding aggregations of Adélie, gentoo, and chinstrap penguins throughout ASPA #128 on King George Island. The cameras will provide time-lapse photography during breeding and non-breeding seasons to estimate key monitoring parameters such as arrival timing, reproductive chronology and success, chick production, overwinter attendance, and census data. Now the applicant proposes a permit modification to install up to 22 of these cameras within ASPA 128 The Environmental Officer has reviewed the

modification request and has determined that the amendment is not a material change to the permit, and it will have a less than a minor or transitory impact.

The permit modification was issued on September 16, 2015.

**Nadene G. Kennedy,**  
*Polar Coordination Specialist, Division of Polar Programs.*
