Title: 7 CFR part 1717, subpart Y, Settlement of Debt Owed by Electric Borrowers.

OMB Control Number: 0572-0116.

Type of Request: Extension of a currently approved information collection package.

Abstract: The Rural Utilities Service makes mortgage loans and loan guarantees to electric systems to provide and improve electric service in rural areas pursuant to the Rural Electrification Act of 1936, as amended (7 U.S.C. 901 *et seq.*) (RE Act). This

information collection requirement stems from passage of Public Law 104–127, on April 4, 1996, which amended section 331(b) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 *et seq.*) to extend to RUS the Secretary of Agriculture's authority to settle debts with respect to loans made or guaranteed by RUS. Only those electric borrowers that are unable to fully repay their debts to the Government and who apply to RUS for relief will be affected by this information collection.

The collection will require only that information which is essential for determining: The need for debt settlement; the amount of relief that is needed; the amount of debt that can be repaid; the scheduling of debt repayment; and, the range of opportunities for enhancing the amount of debt that can be recovered. The information to be collected will be similar to that which any prudent lender would require to determine whether debt settlement is required and the amount of relief that is needed. Since the need for relief is expected to vary substantially from case to case, so will the required information collection.

Estimate of Burden: Public reporting for this collection of information is estimated to average 1,000 hours per response.

Respondents: Not-for-profit institutions and other businesses.

Estimated Number of Respondents: 1.
Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 1,000 hours.

Copies of this information collection can be obtained from Rebecca Hunt, Program Development and Regulatory Analysis at (202) 205–3660. FAX: (202) 720–8435.

All responses to this notice will be summarized and included in the request for OMB approval.

All comments will also become a matter of public record.

Dated: September 18, 2015.

Administrator, Rural Utilities Service.

BILLING CODE 6350–01–P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Service Annual Survey (SAS).

OMB Control Number: 0607–0422.

Form Number(s): There are 162 individual collection instruments in the SAS, each having its own form number.

Type of Request: Revision of a currently approved collection.

Number of Respondents: 82,240.

Average Hours per Response: 3.73063 hours.

Burden Hours: 306,807.

Needs and Uses: Over 50 percent of all economic activity is accounted for by "services" defined to exclude retail and wholesale trade. The U.S. Census Bureau currently measures the total output of most of these service industries annually in the Service Annual Survey (SAS). This survey currently covers all or some of: Utilities; Transportation and Warehousing; Information; Finance and Insurance; Real Estate and Rental and Leasing; Professional, Scientific, and Technical Services; Administration and Support and Waste Management and Remediation Services; Educational Services; Health Care and Social Assistance; Arts, Entertainment, and Recreation; and Other Services as defined by the North American Industry Classification System (NAICS). Beginning with survey year 2016, which will be mailed in January 2017, Accommodation and Food Services will also be collected as part of the SAS. Previously the accommodation and food services industry was collected as part of the Annual Retail Trade Survey (ARTS), OMB number 0607–0013. The reason is that under the NAICS structure, the Accommodation and Food Services sector is classified under services rather than retail.

Estimates from the SAS are essential to a better understanding and higher quality estimates of economic growth, real output, prices, and productivity for our nation's economy. A broad spectrum of government and private stakeholders use these estimates in analyzing business and economic sectors; developing statistics on services; forecasting economic growth; and compiling data on productivity, prices, and the gross domestic product
