

National Environmental Policy Act (NEPA)

NMFS prepared an Environmental Assessment (EA) and a Supplemental Environmental Assessment (SEA) for the take of marine mammals incidental to construction of the East Span of the SF-OBB and made Findings of No Significant Impact (FONSI) on November 4, 2003 and August 5, 2009. Due to the modification of part of the demolition of the original SFOBB using controlled implosion and the associated mitigation and monitoring measures, NMFS prepared an SEA and analyzed the potential impacts to marine mammals that would result from the modification. A Finding of No Significant Impact (FONSI) was signed in September 2015. A copy of the EA and FONSI is available upon request (see ADDRESSES).

Authorization

NMFS has issued an IHA to CALTRANS for the potential harassment of small numbers of four marine mammal species incidental to the SFOBB Pier E3 demolition via controlled implosion in San Francisco Bay, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

Dated: September 18, 2015.
