DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XE208

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council's (Council) Northeast Trawl Advisory Panel (NTAP) will hold a public meeting.

DATES: The meeting will be held on Thursday, October 15, 2015, from 8 a.m. to 5 p.m. For agenda details, see

SUPPLEMENTARY INFORMATION.

ADDRESSES: The meeting will held at the Radisson Hotel Providence Airport, 2081 Post Road, Warwick, RI 02886; telephone: (401) 739-3000.

Council address: Mid-Atlantic Fishery Management Council, 800 N. State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331 or on their Web site at www.mafmc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526-5255.

SUPPLEMENTARY INFORMATION: The NTAP is a joint advisory panel of the Mid-Atlantic and New England Fishery Management Councils. It is composed of

Council members, fishing industry, academic, and government and non-government fisheries experts who will provide advice and direction on the conduct of trawl research. The NTAP was established to bring commercial fishing, fisheries science, and fishery management professionals in the northeastern US together to identify concerns about regional research survey performance and data, to identify methods to address or mitigate these concerns, and to promote mutual understanding and acceptance of the results of this work among their peers and in the broader community. Topics to be discussed at the meeting include: review NTAP Charter, review NEFSC Trawl Survey, and discuss additional trawl research/complementary surveys.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders, (302) 526-5251, at least 5 days prior to the meeting date.

Dated: September 23, 2015.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of the Army

Intent To Prepare a Draft Environmental Impact Statement (EIS) for a Permit Application for Upper Llagas Creek Flood Protection Project in Santa Clara County, California

AGENCY: U.S. Army Corps of Engineers, San Francisco District, DoD.

ACTION: Notice of Intent (NOI).

SUMMARY: The U.S. Army Corps of Engineers (Corps), San Francisco District, has received a permit application for a Department of the Army permit under Section 404 of the Clean Water Act (33 U.S.C. 1344) and Section 10 of the Rivers and Harbors Act (33 U.S.C. 403) from the Santa Clara Valley Water Control District to construct flood conveyance features and to deepen and widen Upper Llagas Creek (Proposed Action). As part of the permit process, the Corps is evaluating the environmental effects associated with construction and implementation of these additional flood protection measures within the communities of Morgan Hill, San Martin, and Gilroy.

The primary federal involvement associated with the Proposed Action is the discharge of fill material within federal jurisdictional areas and Waters of the United States and work within Navigable Waters of the United States. In addition, the Proposed Action could have potential significant effects on the human environment. Therefore, the Corps will prepare an EIS in compliance with the National Environmental Policy Act (NEPA) to render a final decision on the Santa Clara Valley Water District's permit application. The Corps' decision will be to either issue or deny a Department of the Army permit for the Proposed Action. The Draft EIS is intended to be sufficient in scope to address federal, state, and local requirements and environmental issues concerning the Proposed Action and permit review.

FOR FURTHER INFORMATION CONTACT:

Questions about the Proposed Action and Draft EIS should be directed to Mr. James Mazza, Corps Regulatory Project Manager, by telephone at (415) 503-6775 or by email at james.c.mazza@usace.army.mil. Written comments should be addressed to the U.S. Army Corps of Engineers, San Francisco District, Regulatory Division, Attn: Mr. James Mazza, 1455 Market Street, San Francisco, California 94103-1398. Information about the Proposed Action and Draft EIS can also be obtained from the San Francisco District Web site at www.sfn.usace.army.mil.

SUPPLEMENTARY INFORMATION: 1. *Project Site and Background Information.* The Proposed Action is located within the southern Santa Clara County, approximately 25 miles southeast of San Jose, in the communities of Morgan Hill and San Martin. The project consists of seven reaches (4, 5, 6, 7A, 7B, 8, and 14) of Llagas Creek, East Little Llagas Creek, and West Little Llagas Creek above Buena Vista Avenue. The total length of the project area is approximately 13.1 miles; 6.1 miles of which are along the main branch of Llagas Creek, 3.3 miles along West Little Llagas Creek, and 2.4 miles along a tributary of Llagas Creek known as East Little Llagas Creek. An additional 1.3 miles of new diversion channel would be constructed along West Little Llagas Creek to Llagas Creek. On the north, the physical limits of the project are at the creek's intersection with Llagas Road on West Little Llagas Creek in Morgan Hill and in the south, the project limits area approximately 800 feet below the creek's intersection with Buena Vista Avenue in Gilroy.

(a) *Background.* In 1982 the first EIS for the Upper Llagas Project was prepared by the National Resources
