SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and/or
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

1. *Type of Information Collection:* New Information Collection.
2. *The Title of the Form/Collection:* Request to be included on the List of Pro Bono Legal Service Providers for Individuals in Immigration Proceedings.
3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Form EOIR-56. The applicable component within the Department of Justice is the Office of Legal Access Programs, Executive Office for Immigration Review.
4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Legal service providers seeking to be included on the List of Pro Bono Legal Service Providers ("List"), a list of persons who have indicated their availability to represent aliens on a pro bono basis. Abstract: Currently, there is no EOIR form for organizations, private attorneys, and referral services to be included on the List. The NPRM for the List indicated that there was no specific form or information collection instrument associated with this rule. See 79 FR 55669. However, pursuant to public comments suggesting that EOIR look for alternative electronic methods

through which to make an initial application and apply for continued participation in the List, EOIR has created a fillable pdf. form (Form EOIR-56) for this purpose. Form EOIR-56 is voluntary, and may be used to elicit, in a uniform manner, all of the required information for EOIR to determine whether an applicant meets the eligibility requirements for inclusion on the List.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* It is estimated that 129 respondents will complete the form annually with an average of 30 minutes per response.

6. *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 64.5 total annual burden hours associated with this collection.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Refuge Alternatives for Underground Coal Mines information collection. MSHA regulations mandate each underground coal mine to have an emergency response plan and refuge alternative(s) to protect miners by providing secure spaces with isolated atmospheres that create life-sustaining environments when escape from a mine during a mine emergency is not

possible. See 30 CFR 75.1506(c)(2), 75-1507, and 75-1508(a) and (b). This ICR covers the refuge alternatives portion of emergency response plans and records for training, examination, maintenance, and repair of refuge alternatives and components. This ICR is being submitted as a revision, because the MSHA has transferred burden to other approved collections; this ICR makes the corresponding changes to this collection. Federal Mine Safety and Health Act of 1977 sections 101(a)(6) and 103(c) and (h) authorize this information collection. See 30 U.S.C. 811(a)(6); 813(c), (h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0146.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on September 30, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on May 28, 2015 (80 FR 30494).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section by November 30, 2015. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0146. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the

proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.
