National Institutes of Health

National Institute on Aging; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute on Aging Special Emphasis Panel, HIV and Aging.

Date: October 30, 2015.

Time: 11:00 a.m. to 4:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institute on Aging, Gateway Building, 2C212, 7201 Wisconsin Avenue Bethesda, MD 20892 (Telephone Conference Call).

Contact Person: Maurizio Grimaldi, MD, Ph.D., Scientific Review Officer, National Institute on Aging, National Institutes of Health, 7201 Wisconsin Avenue, Room 2C218, Bethesda, MD 20892, 301-496-9374, grimaldim2@mail.nih.gov.

(Catalogue of Federal Domestic Assistance Program Nos. 93.866, Aging Research, National Institutes of Health, HHS)

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the

collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Now Is the Time (NITT)—Project AWARE Evaluation—Site Notification and Recruitment—New

SAMHSA is conducting a national evaluation of the Now is the Time (NITT) initiative, which includes separate programs—NITT Project AWARE (Advancing Wellness and Resilience in Education)—State Educational Agency (SEA), Healthy Transitions, and two Minority Fellowship Programs (Youth and Addictions Counselors). These programs are united by their focus on capacity building, system change, and workforce development.

NITT—Project AWARE, which is the focus of this activity, represents a response to the third and fourth components of President Obama's NITT Initiative: Making schools safer and focusing on access to mental health services. NITT—Project AWARE is authorized under section 520A of the Public Health Service Act, as amended, and addresses the Healthy People 2020 Mental Health and Mental Disorders Topic Area. Project AWARE grantees are required to provide mental health awareness training to adults who interact with youth, create partnerships to connect youth to mental health services, and create a school climate to reduce violence. NITT—Project AWARE grants were made to 20 state education agencies, each of which will partner with 3–5 local education agencies (LEAs or school districts) in their state to plan and implement Project AWARE activities. Project AWARE activities may be implemented in all schools in the district or may be focused on a specific type or number of schools.

The evaluation of NITT—Project AWARE will examine the process, outcomes, and impact of activities by SEA grantees and their LEA and school partners. The study will evaluate the capacity of SEAs to increase awareness of mental health issues among school-aged youth; provide training for school personnel and other adults who interact with youth to detect and respond to mental illness in children and young adults; connect children, youth, and

families/caregivers who may have behavioral health issues with appropriate services; and improve conditions for learning and behavioral health outcomes for all school-aged youth (grades K–12). At the grantee, district, and school levels, the evaluation will collect data from key staff in all partner organizations. At each Project AWARE and comparison school, annual surveys will be used to collect data from the school principal (or designee), students, and teachers, beginning in spring 2016. The NITT—Project AWARE evaluation will also rely on information collected from existing sources or noted in award requirements.

Site notification and recruitment of Project AWARE grantees and their school and district partners is being conducted for the purpose of enlisting sites for participation in the Project AWARE component of the NITT evaluation. Site notification and recruitment will be conducted in school year 2015–2016. Data collection is planned to begin in spring 2016. Subsequent OMB packages will be submitted separately for each of the three program evaluations (*i.e.*, Project AWARE, Healthy Transitions, MFP—Youth & Addiction Counselors) in fall 2015, requesting approval for instruments and data collection procedures.

Current activities are focused on notification and recruitment of state grantees, grantee and nongrantee districts, and grantee and nongrantee schools. Each grantee state will be asked to support the evaluation by encouraging the grantee districts to cooperate with the national evaluation contractor when contacted, enlist the participation of grantee schools, and provide access to data available through the district's management information system (MIS). Each grantee district will also be asked to assist the study with identifying and encouraging the participation of comparison (*i.e.*, nongrantee) schools, where possible. For each treatment (*i.e.*, Project AWARE) school, one matched comparison school will be identified that is similar to the treatment school in terms of demographic characteristics and rates of incidents of violence and other measures but is not implementing Project AWARE activities. Both treatment and comparison schools will

be asked to participate in the school, teacher, and student surveys (teachers and students) and data abstraction from the schools' MIS system.

If a comparison school cannot be identified or recruited from the same grantee district as the treatment school, an attempt will be made to recruit nongrantee districts and schools in a neighboring community where potential matched schools have been identified.

During site notification and recruitment, the evaluation contractor will send packets that include a letter, brochure, and frequently asked questions, and will follow up with a telephone call. The following entities will be contacted:

- All 20 NITT—Project AWARE grantees at the state level
 - An estimated 90 local education agency partners (3–5 districts per state, under the grant requirements)
 - An estimated 396 schools in grantee districts that will be implementing Project AWARE activities (“treatment schools”) (approximately 4–5 schools per grantee district are expected to participate in the evaluation). This estimate includes additional schools that may need to be contacted to replace grantee schools that are unable or unwilling to participate.
 - An estimated 432 schools in grantee districts that are NOT currently implementing Project AWARE activities (“comparison schools”). This estimate includes additional schools that may need to be contacted to replace comparison schools that are unable or unwilling to participate.
 - Approximately 30 nongrantee districts will be identified and recruited *as needed* if no comparison school is available in a grantee district to form a matched pair with a treatment school.
 - Approximately 90 comparison schools in nongrantee districts will be identified and recruited *as needed* to form a matched pair for treatment schools with no comparison school available. For each treatment school without a comparison school, one best match and two alternates will be identified in each of the 30 districts.
- The table below summarizes the reporting burden associated with this notification and recruitment activity. The total burden is 1,058 hours.

TOTAL BURDEN HOURS FOR THE NITT—PROJECT AWARE SITE NOTIFICATION AND RECRUITMENT
[FY2016]

Respondent	Number of respondents	Responses per respondent	Total number of responses	Hours per response	Total burden hours
State grantee official	20	1	20	1	20
District official in grantee district	90	1	90	1	90
School official in grantee district—treatment school	396	1	396	1	396
School official in grantee district—comparison school	432	1	432	1	432
District official in nongrantee district	30	1	30	1	30
School official in nongrantee district	90	1	90	1	90
<i>Total</i>	1,058	1,058	1,058

BILLING CODE 4162–20–P

DEPARTMENT OF HOMELAND SECURITY

[Docket No. DHS–2015–0064]

Office for Interoperability and Compatibility Seeks Nominations for the Project 25 Compliance Assessment Program (P25 CAP) Advisory Panel

AGENCY: Science and Technology Directorate, DHS.

ACTION: Notice.

SUMMARY: The Department of Homeland Security (DHS) is once again seeking nominations and expressions of interest for membership on the Project 25 Compliance Assessment Program Advisory Panel (P25 CAP AP). DHS is providing the public with additional time to submit nominations because it wants to ensure that it has a broad and qualified pool of candidates to select from for the benefit of the program and its stakeholders. DHS previously made this request through the **Federal Register** (Docket No. DHS–2015–0041). DHS understands that the previous notice may have provided insufficient time for some to obtain the necessary components for a qualifying nomination package. The activities of the P25 CAP AP are expected to commence in fall 2015.

P25 is a standard which enables interoperability among digital two-way land mobile radio communications products created by and for public

safety professionals. P25 CAP is a formal, independent process, created by DHS and operated in collaboration with the National Institute of Standards and Technology (NIST), for ensuring that communications equipment that is declared by the supplier to be P25 compliant, in fact, is tested against the standards with publicly published results. The P25 CAP AP would provide a resource by which DHS could gain insight into the collective interest of organizations that procure P25-compliant equipment and a resource in DHS's continuing to establish the policies of the P25 CAP along with assisting the DHS Office for Interoperability and Compatibility (OIC) in the administration of the Program.

DATES: All responses must be received within 15 days from the date of this notice at the address listed below.

ADDRESSES: Expressions of interest and nominations should be submitted to SandTFRG@hq.dhs.gov.

- **Instructions:** All submissions received must include the words “Department of Homeland Security” and DHS–2015–0064, the docket number for this action.

FOR FURTHER INFORMATION CONTACT: John Merrill, Director, Office for Interoperability and Compatibility, Science and Technology Directorate, Department of Homeland Security, 202–254–5604 (O), John.Merrill@hq.dhs.gov.

SUPPLEMENTARY INFORMATION:

Background

TIA–102/Project 25 (P25) is a standards development process for the design, manufacture, and evaluation of interoperable digital two-way land mobile radio communications products created by and for public safety professionals. The goal of P25 is to specify formal standards for interfaces and features between the various components of a land mobile radio system commonly used by public safety agencies in portable handheld and mobile vehicle-mounted devices. The

P25 standard enables interoperability among different suppliers' products.

P25 CAP was developed by DHS and the National Institute of Standards and Technology (NIST) to test equipment designed to comply with P25 standards. The program provides public safety agencies with evidence that the communications equipment they are purchasing is tested against and complies with the P25 standards for performance, conformance, and interoperability.

P25 CAP is a voluntary system that provides a mechanism for the recognition of testing laboratories based on internationally accepted standards. It identifies competent P25 CAP testing laboratories for DHS-recognition through assessments by DHS-authorized accreditation bodies and promotes the acceptance of compliant test results from these laboratories.

As a voluntary program, P25 CAP allows suppliers to publicly attest to their products' compliance with a selected group of requirements through Summary Test Report (STR) and Supplier's Declaration of Compliance (SDOC) documents based on the Detailed Test Report (DTR) from the DHS-recognized laboratory (ies) that performed the product testing. In turn, P25 CAP makes these documents available to the first response community to inform their purchasing decisions via the FirstResponder.gov/P25CAP Web site.

Membership

The Science and Technology Directorate (S&T) of the DHS is forming the P25 CAP Advisory Panel to provide S&T with the views of active local, state, tribal, territorial and Federal government officials who use or whose offices use portable handheld and mobile vehicle-mounted radios. Those government officials selected to participate in the P25 CAP AP will be selected based on their experience with the management and procurement of land mobile radio systems or knowledge
