Shenango Dam Hydroelectric Company, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On August 11, 2015, Shenango Dam Hydroelectric Company, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of hydropower at the U.S. Army Corps of Engineers' (Corps) Shenango dam located on the Shenango River, near the Borough of Sharpsburg, Mercer County, Pennsylvania. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed Shenango Hydroelectric Project would consist of the following: (1) Five bulb turbines/generators having a total installed capacity of 2,500 kilowatts to be installed on the upstream face of the existing dam in five of the seven discharge conduits; (2) a proposed steel equipment building 11 feet wide by 40 feet long housing the switchgear and transformer; (3) a 400-foot-long, 14.7-kilovolt transmission line extending to an existing FirstEnergy transmission system; and (4) appurtenant facilities. The proposed project would have an average annual generation of 10,000 megawatt-hours.
