FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Karen Duke, (202) 219–7067.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: The Secretary of the Department of Education's Recognition of Accrediting Agencies, and the Comparability of Medical and Veterinary Medical Programs.

OMB Control Number: 1840–0788.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Private Sector.

Total Estimated Number of Annual Responses: 127.

Total Estimated Number of Annual Burden Hours: 828.

Abstract: In compliance with Title 34 CFR part 602.10; 602.55; 602.56; and 603.24, the information collected consists of petitions, reports, and accreditation notifications. The information collected is required to determine if accrediting agencies comply or are comparable to the Secretary of Education's criteria for recognition and is used to allow the Secretary to make determinations on new, extension and/or continuing recognition or comparability status. Only postsecondary institutions and countries deemed to be using comparable standards obtain Title IV funding for its students.

Dated: September 25, 2015.

[Docket No. PP–371]

Notice of Intent To Prepare a Supplement to the Draft Northern Pass Transmission Line Project Environmental Impact Statement and Announcing the Extension of the Public Comment Period and Postponement of Public Hearings To Receive Comments on the Draft Environmental Impact Statement

AGENCY: Department of Energy.

ACTION: Notice of intent to prepare a Supplement to the Draft Northern Pass Transmission Line Project Environmental Impact Statement (EIS) (DOE/EIS–0463) and announcing the extension of the public comment period and postponement of public hearings on the Draft EIS.

SUMMARY: In August 2015, the U.S. Department of Energy (DOE) received an amendment to the July 2013 Northern Pass Transmission Line Project Presidential permit amended application.

The August 2015 application amendment changed the proposed transmission line route by adding three miles of buried transmission line adjacent to a road not previously

analyzed, added two new transition stations and increased the total amount of proposed buried transmission line from approximately 8 miles to approximately 60 miles. In addition, the amendment proposed a minor shift in the international border crossing location and identified some other project changes. The proposed transmission line route and associated changes in the amended application is a new “Applicant's Preferred Alternative.”

The Supplement to the Draft EIS will present an analysis of the new Applicant's Preferred Alternative. This analysis will compare the new proposed transmission line route and configuration (above ground/underground) against the alternatives currently presented in the Draft EIS. To accommodate public review and comment on both the Draft EIS and the Supplement to the Draft EIS, DOE is extending the public comment period until December 31, 2015. DOE has canceled the public hearings on the Draft EIS that were to be held in October 2015 and will reschedule those hearings after the Supplement to the Draft EIS is issued.

DATES: DOE extends the current public comment period that was to close on October 29, 2015, to December 31, 2015. DOE will conduct public hearings on the Draft EIS and the Supplement to the Draft EIS prior to the close of the public comment period on December 31, 2015. DOE will announce dates, times and locations of the rescheduled public hearings after issuance of the Supplement to the Draft EIS, which is expected in November 2015.

ADDRESSES: Requests for individuals to be added to the document mailing list (to receive a paper or electronic copy of the Draft EIS and/or Supplement to the Draft EIS) should be addressed to: Brian Mills, Office of Electricity Delivery and Energy Reliability (OE–20), U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585; by email to Brian.Mills@hq.doe.gov; or by facsimile to 202–586–8008. Additional information on the Northern Pass Transmission Line Project EIS is available on the EIS Web site at <http://www.northernpasseis.us>.

SUPPLEMENTARY INFORMATION: The public comment period on the Draft EIS started on July 31, 2015, with publication in the **Federal Register** by the U.S. Environmental Protection Agency of its Notice of Availability of the Draft EIS. The Draft EIS is available on the Northern Pass EIS Web site at <http://www.northernpasseis.us/library/>

draft-eis. On August 28, 2015, DOE announced public hearings in October 2015 to receive comments on the Draft EIS in the **Federal Register** (80 FR 52268). On August 31, 2015, DOE received an amendment to the July 1, 2013, Northern Pass Transmission Line Project Presidential permit amended application. The August 31, 2015 amendment and related exhibits are available on the Northern Pass EIS Web site at <http://www.northernpasseis.us/library/documents/>.

The August 31, 2015 application amendment changed the proposed transmission line route by adding three miles of buried transmission line adjacent to a road not previously analyzed, added two new transition stations (one in Bridgewater and one in Bethlehem; both would transition the transmission line between aboveground and buried) of approximately one acre each, and increased the amount of proposed buried transmission line from approximately 8 miles to approximately 60 miles. In addition, the amendment proposed a minor shift (less than 100 feet) in the international border crossing location, changed the project size from 1,200 MW to 1,000 MW with a potential transfer capability of 1,090 MW and included other design changes (e.g., change in converter technology and type of cable).

Issued in Washington, DC, on September 24, 2015.

Meghan Conklin,

Deputy Assistant Secretary, National Electricity Delivery Division, Office of Electricity Delivery and Energy Reliability, U.S. Department of Energy.
