

routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "Disposal of High-Level Radioactive Wastes in Geologic Repositories." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on May 19, 2015 [80 FR 28714].

1. *The title of the information collection:* Title 10 of the Code of Federal Regulations (10 CFR) part 60, "Disposal of High-Level Radioactive Wastes in Geologic Repositories."

2. *OMB approval number:* 3150-0127.

3. *Type of submission:* Extension.

4. *The form number if applicable:* Not applicable.

5. *How often the collection is required or requested:* The information need only be submitted one time.

6. *Who will be required or asked to respond:* State or Indian Tribes, or their representatives, requesting consultation with the NRC staff regarding review of a potential high-level radioactive waste geologic repository site, or wishing to participate in a license application review for a potential geologic repository (other than a potential geologic repository site at Yucca Mountain, Nevada, which is regulated under 10 CFR part 63).

7. *The estimated number of annual responses:* One; however, none are expected in the next three years.

8. *The estimated number of annual respondents:* One; however, none are expected in the next three years.

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement*

or request: 121; however, none are expected in the next three years.

10. *Abstract:* Part 60 of 10 CFR requires States and Indian Tribes to submit certain information to the NRC if they request consultation with the NRC staff concerning the review of a potential repository site, or wish to participate in a license application review for a potential repository (other than the Yucca Mountain, Nevada site, which is regulated under 10 CFR part 63). States and Indian Tribes are required to submit information regarding requests for consultation with the NRC and participation in the review of a site characterization plan and/or license application, but only if they wish to obtain NRC consultation services and/or participate in the reviews. The information submitted by the States and Indian Tribes is used by the Director of the Office of Nuclear Material Safety and Safeguards as a basis for decisions about the commitment of NRC staff resources to the consultation and participation efforts. The NRC anticipates conducting a public rulemaking to revise portions of 10 CFR part 60 in the near future (*i.e.*, within the next five years). If, as part of this rulemaking, revisions are made affecting the information collection requirements, the NRC will follow OMB requirements for obtaining approval for any revised information collection requirements. [Note: All of the information collection requirements pertaining to Yucca Mountain were included in 10 CFR part 63, and were approved by OMB under control number 3150-0199. The Yucca Mountain site is regulated under 10 CFR part 63 (66 FR 55792, November 2, 2001).]
