Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "Financial Protection Requirements and Indemnity Agreements." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a Federal Register notice with a 60-day comment period on this information collection on June 16, 2015 (80 FR 34464).

- 1. The title of the information collection: 10 CFR part 140, "Financial Protection Requirements and Indemnity Agreements."
2. OMB approval number: 3150-0039.
3. Type of submission: Extension.
4. The form number if applicable: Not applicable.
5. How often the collection is required or requested: On occasion, as needed for the licensees to meet their responsibilities called for in Sections 170 and 193 of the Atomic Energy Act of 1954.

6. Who will be required or asked to respond: Licensees authorized to operate reactor facilities in accordance with Title 10 of the Code of Federal Regulations (10 CFR) part 50, or a holder of a combined license under 10

CFR part 52, and licensees authorized to construct and operate a uranium enrichment facility in accordance with 10 CFR parts 40 and 70.

7. The estimated number of annual responses: 102.

8. The estimated number of annual respondents: 101.

9. An estimate of the total number of hours needed annually to comply with the information collection requirement or request: 803.

10. Abstract: Information submitted by licensees pursuant to 10 CFR part 140 enables the NRC to assess (a) the financial protection required of licensees and for the indemnification and limitation of liability of certain licensees and other persons pursuant to Section 170 of the Atomic Energy Act of 1954, as amended, and (b) the liability insurance required of uranium enrichment facility licensees pursuant to Section 193 of the Atomic Energy Act of 1954, as amended.

Dated at Rockville, Maryland, this 28th day of September 2015.

For the Nuclear Regulatory Commission. Tremaine Donnell, NRC Clearance Officer, Office of Information Services.
