List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

- 1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 0170.1.

- 2. Add § 165.11731 to read as follows:

§ 165.11731 Security Zone: Escorted Vessels, Los Angeles-Long Beach, CA, Captain of the Port Zone.

(a) *Definitions.* The following definitions apply to this section:

COTP means Captain of the Port Los Angeles–Long Beach, CA (LALB).

Designated representatives means Coast Guard Patrol Commanders including Coast Guard coxswains, petty officers and other officers operating Coast Guard vessels, and Federal, State, and local officers designated by or assisting the COTP, in the enforcement of the security zone.

Escorted vessel means a vessel, other than a large U.S. naval vessel as defined in § 165.2015, that is accompanied by one or more Coast Guard assets or other Federal, State or local law enforcement agency assets clearly identifiable by lights, vessel markings, or with agency insignia as listed below:

- (1) Coast Guard surface or air asset displaying the Coast Guard insignia.
- (2) State and/or local law enforcement asset displaying the applicable agency markings and/or equipment associated with the agency.

(3) When escorted vessels are moored, dayboards or other visual indications such as lights or buoys may be used. In all cases, broadcast notice to mariners will be issued to advise mariners of these restrictions.

Minimum safe speed means the speed at which a vessel proceeds when it is fully off plane, completely settled in the water and not creating excessive wake. Due to the different speeds at which vessels of different sizes and

configurations may travel while in compliance with this definition, no specific speed is assigned to minimum safe speed. In no instance should minimum safe speed be interpreted as a speed less than that required for a particular vessel to maintain steerageway. A vessel is not proceeding at minimum safe speed if it is:

- (1) On a plane;
- (2) In the process of coming up onto or coming off a plane; or
- (3) Creating an excessive wake.

(b) *Regulated area.* All navigable waters, as defined in 33 CFR 2.36, within the Captain of the Port Zone, Los Angeles–Long Beach, California 33 CFR 3.55–10.

(c) *Security zone.* A 500-yard security zone is established around each escorted vessel within the regulated area described in paragraph (b) of this section. This is a moving security zone when the escorted vessel is in transit and becomes a fixed zone when the escorted vessel is anchored or moored. A security zone will not extend beyond the boundary of the regulated area in this section.

(d) *Regulations.* (1) The general regulations for security zones contained in § 165.33 apply to this section.

(2) A vessel may request the permission of the COTP LALB or a designated representative to enter the security zone described in paragraph (c) of this section. If permitted to enter the security zone, a vessel must proceed at the minimum safe speed and must comply with the orders of the COTP or a designated representative.

(e) *Notice of security zone.* The COTP will inform the public of the existence or status of the security zones around escorted vessels in the regulated area by Broadcast Notice to Mariners. Coast Guard assets or other Federal, State or local law enforcement agency assets will be clearly identified by lights, vessel markings, or with agency insignia. When escorted vessels are moored, dayboards or other visual indications such as lights or buoys may be used.

(f) *Contact information.* The COTP LALB may be reached via phone at (310) 521–3801. Any on scene Coast Guard or designated representative assets may be reached via VHF–FM channel 16.

Dated: September 15, 2015.

J. F. Williams,

Captain, U.S. Coast Guard, Captain of the Port Los Angeles—Long Beach.

BILLING CODE 9110–04–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R04–OAR–2015–0384; FRL–9935–22–Region 4]

Approval and Promulgation of Implementation Plans; Kentucky: New Sources in or Impacting Nonattainment Areas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve the Commonwealth of Kentucky's September 23, 2011, State Implementation Plan (SIP) revision, submitted through the Kentucky Division for Air Quality (KY DAQ), which modifies the SIP by making changes to Kentucky regulation, "Review of new sources in or impacting upon nonattainment areas." EPA has determined that Kentucky's requested SIP revision meets the applicable provisions of the Clean Air Act (CAA or Act) and EPA regulations regarding Nonattainment New Source Review (NNSR) permitting.

DATES: This rule is effective November 9, 2015.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–R04–OAR–2015–0384. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, *i.e.*, Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Air Regulatory Management Section, Air Planning and Implementation Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303–8960. EPA requests that if at all possible, you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office's official hours of business are Monday through Friday 8:30 a.m. to 4:30 p.m., excluding Federal holidays. **FOR FURTHER INFORMATION CONTACT:** Zuri Farnagalo, Air Regulatory Management

Section, Air Planning and Implementation Branch, Pesticides and Toxics Management Division, Region 4, U.S. Environmental Protection Agency, 61 Forsyth Street SW., Atlanta, Georgia 30303–8960. Mr. Farnago can be reached by telephone at (404) 562–9152 and via electronic mail at farnago.zuri@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On September 23, 2011, KY DAQ submitted a SIP revision to EPA for approval that makes several changes to Kentucky's regulations at 401 Kentucky Administrative Regulations (KAR) 51:052, *Review of new sources in or impacting nonattainment areas*. These regulations establish air quality permitting requirements for the construction or modification of major stationary sources located within, or impacting upon, areas designated nonattainment for any primary national ambient air quality standard. To ensure improvement of air quality in those areas, the emissions resulting from construction or modification of a major stationary source must be offset with compensating emission reductions.

Kentucky's requested SIP revision would revise 401 KAR 51:052 by: (1) Changing Section 5, paragraph (6)(b) to authorize new or modified sources to offset their emission increases with emission reductions achieved by shutting down an existing unit or curtailing production or operating hours prior to the new source application date (if specified conditions are met), (2) adding new and more comprehensive language to Section 5, paragraph (6)(b) describing how to calculate offsetting emission reductions obtained from a source shutdown or curtailment (3) amending Section 4, paragraph (3)(a) to establish an offset ratio of at least 1:1 for pollutants other than volatile organic compounds and nitrogen oxides, and (4) making changes to the introductory paragraph to 401 KAR 51:052 and Section 5, paragraph (3)(e) that update and clarify these provisions.

In a notice of proposed rulemaking (NPR) published on August 11, 2015, EPA proposed to approve Kentucky's revisions to 401 KAR 51:052, *Review of new sources in or impacting nonattainment areas* revisions. See 80 FR 48051. The details of Kentucky's submittal and the rationale for EPA's action are provided in the NPR. EPA did not receive any relevant comments on the proposed action.

II. Incorporation by Reference

In this rule, EPA is finalizing regulatory text that includes

incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is finalizing the incorporation by reference of Kentucky Rule 401 KAR 51:052 entitled "*Review of new sources in or impacting nonattainment areas*," which became effective in the Commonwealth of Kentucky on August 4, 2011. EPA has made, and will continue to make, these documents generally available electronically through www.regulations.gov and/or in hard copy at the Region 4 office (see the ADDRESSES section of this preamble for more information).

III. Final Action

EPA is taking final action to approve the Commonwealth of Kentucky's September 23, 2011, SIP revision. EPA has determined that the changes to Kentucky's Rule 401 KAR 51:052, *Review of new sources in or impacting nonattainment areas*, are approvable because they are consistent with CAA section 110 and EPA's regulations regarding NNSR permitting at 40 CFR 51.165.

IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. See 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by December 7, 2015. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. See section 307(b)(2).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements and Volatile organic compounds.

Dated: September 24, 2015.
Heather McTeer Toney,
Regional Administrator, Region 4.
 40 CFR parts 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart S—Kentucky

■ 2. In § 52.920, table 1 in paragraph (c) is amended under Chapter 51 by revising the entry for “401 KAR 51:052” to read of follows:

§ 52.920 Identification of plan.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 141021887–5172–02]

RIN 0648–XE224

Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Atka Mackerel in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; reallocation.

SUMMARY: NMFS is reallocating the projected unused amount of the 2015 Atka mackerel incidental catch allowance (ICA) for the Bering Sea

subarea and Eastern Aleutian district (BS/EAI) to the Amendment 80 cooperative allocations in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to allow the 2015 total allowable catch of Atka mackerel in the BSAI to be fully harvested.
DATES: Effective 12 hrs Alaska local time (A.l.t.), October 5, 2015 through 2400 hrs, A.l.t., December 31, 2015.
FOR FURTHER INFORMATION CONTACT: Steve Whitney, 907–586–7228.
SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.
 The 2015 Atka mackerel ICA for the BS/EAI is 1,000 metric tons (mt) and

2015 Atka mackerel total allowable catch allocated to the Amendment 80 cooperatives is 20,696 mt as established by the final 2015 and 2016 harvest specifications for groundfish in the BSAI (80 FR 11919, March 5, 2015).
 The Administrator, Alaska Region, NMFS, has determined that 700 mt of the Atka mackerel ICA for the BS/EAI will not be harvested. Therefore, in accordance with § 679.91(f), NMFS reallocates 700 mt of Atka mackerel from the BS/EAI ICA to the Amendment 80 cooperatives in the BSAI. In accordance with § 679.91(f), NMFS will reissue cooperative quota permits for the reallocated Atka mackerel following the procedures set forth in § 679.91(f)(3).
 The harvest specifications for Atka mackerel included in the harvest specifications for groundfish in the BSAI (80 FR 11919, March 5, 2015) are revised as follows: 300 mt of Atka mackerel for the BS/EAI ICA and 21,395 mt of Atka mackerel for the Amendment 80 cooperative allocations in the BS/EAI. Table 6 is revised and republished in its entirety as follows:
