Takes of Marine Mammals Incidental to Specified Activities; Seabird Research Activities in Central California, 2015–2016

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; revision of an incidental harassment authorization; request for comments.

SUMMARY: We, NMFS, have received a request from Point Blue Conservation Science (Point Blue) to revise an issued Incidental Harassment Authorization (Authorization) to take marine mammals, by harassment, incidental to conducting seabird research activities on Southeast Farallon Island, Año Nuevo Island, and Point Reyes National Seashore in central California. Point Blue's current Authorization is effective until January 30, 2016, and authorizes the incidental harassment, by Level B harassment only, of approximately 9,871 California sea lions (*Zalophus californianus*). Current environmental conditions in the Pacific Ocean offshore California—which researchers have attributed to an impending El Niño event—have contributed to unprecedented numbers of California sea lions hauled out in areas where Point Blue conducts surveys and maintains critical infrastructure. As such, Point Blue has requested a modification to their current Authorization to increase the number of authorized take for California sea lions to continue critical operations and research. Per the Marine Mammal Protection Act, we are requesting
