

encased in plastic cylinders that record the depth, temperature or other data, which can be downloaded electronically from the recovered tags. The groundfish tagging and tag recovery program is part of the fishery resource assessment and data collection that the National Marine Fisheries Service (NMFS) conducts under the Magnuson-Stevens Act authority as codified in 16 U.S.C. 1801 (a)(8).

II. Method of Collection

This is a volunteer program requiring the actual tag from the fish to be returned, along with recovery information. Reporting forms with pre-addressed and postage-free envelopes are distributed to processors and catcher vessels.

III. Data

OMB Control Number: 0648–0276.

Form Number: None.

Type of Review: Regular submission (extension of a currently approved collection).

Affected Public: Not-for-profit institutions; State, local, or tribal government; business or other for-profit organizations.

Estimated Number of Respondents: 265.

Estimated Time per Response: 5 minutes for returning a regular tag, and 20 minutes for returning an internal archival tag.

Estimated Total Annual Burden Hours: 59.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: October 6, 2015.

Sarah Brabson,

NOAA PRA Clearance Officer.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648–XE231

Endangered and Threatened Species; Recovery Plans

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of availability; request for comments.

SUMMARY: We, NMFS, announce that the *Proposed Endangered Species Act (ESA) Recovery Plan for Oregon Coast Coho Salmon* (Proposed Plan) is available for public review and comment. The Proposed Plan addresses the Oregon Coast Coho Salmon (*Oncorhynchus kisutch*) evolutionarily significant unit (ESU) listed as threatened under the ESA. The geographic area covered by the Proposed Plan is the Pacific Ocean and freshwater habitat (rivers, streams and lakes) from the Necanicum River near Seaside, Oregon, on the northern end to the Sixes River near Port Orford, Oregon on the south. As required under the ESA, the Proposed Plan contains objective, measurable delisting criteria, site-specific management actions necessary to achieve the Proposed Plan's goals, and estimates of the time and costs required to implement recovery actions. We are soliciting review and comment from the public and all interested parties on the Proposed Plan.

DATES: We will consider and address, as appropriate, all substantive comments received during the comment period. Comments on the Proposed Plan must be received no later than 5 p.m. Pacific daylight time on December 14, 2015.

ADDRESSES: You may submit comments on the Public Draft Recovery Plan by the following methods:

- *Electronic Submissions:* Submit all electronic public comments via: 2015CohoPlan.WCR@noaa.gov. Please include "Comments on Oregon Coast Coho Salmon Recovery Plan" in the subject line of the email.
- *Facsimile:* (503) 872–2737.
- *Mail:* Robert Walton, National Marine Fisheries Service, 1201 NE Lloyd Boulevard, Suite 1100, Portland, OR 97232.

Instructions: Comments must be submitted by one of the above methods to ensure comments are received, documented, and considered by NMFS. Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered.

Attachments to electronic comments will be accepted in Microsoft Word, Excel, or Adobe PDF file formats only.

Electronic copies of the Proposed Plan are available on the NMFS Web site at: http://www.westcoast.fisheries.noaa.gov/protected_species/salmon_steelhead/recovery_planning_and_implementation/oregon_coast/oregon_coast_recovery_plan.html. Persons wishing to obtain an electronic copy on CD ROM of the Proposed Plan may do so by calling Nancy Johnson at (503) 230–5442 or by emailing a request to nancy.johnson@noaa.gov with the subject line "CD ROM Request for Oregon Coast Coho Salmon Recovery Plan."

FOR FURTHER INFORMATION CONTACT: Robert Walton, NMFS Oregon Coast Coho Salmon Recovery Coordinator, at (503) 231–2285, or rob.walton@noaa.gov.

FOR FURTHER INFORMATION CONTACT:

Robert Walton, NMFS Oregon Coast Coho Salmon Recovery Coordinator, at (503) 231–2285, or rob.walton@noaa.gov.

SUPPLEMENTARY INFORMATION:

Background

We are responsible for developing and implementing recovery plans for Pacific salmon and steelhead listed under the ESA of 1973, as amended (16 U.S.C. 1531 *et seq.*). Recovery means that the listed species and their ecosystems are sufficiently restored, and their future secured, to the point that the protections of the ESA are no longer necessary. Section 4(f)(1) of the ESA requires that recovery plans include, to the maximum extent practicable: (1) Objective, measurable criteria which, when met, would result in a determination that the species is no longer threatened or endangered; (2) site-specific management actions necessary to achieve the plan's goals; and (3) estimates of the time required and costs to implement recovery actions. The ESA requires the development of recovery plans for each listed species unless such a plan would not promote its recovery.

We believe it is essential to have local support of recovery plans by those whose activities directly affect the listed species and whose continued commitment and leadership will be needed to implement the necessary recovery actions. We therefore support and participate in locally led, collaborative efforts to develop recovery plans that involve state, tribal, and

Federal entities, local communities, and other stakeholders. We have determined that this *Proposed ESA Recovery Plan for Oregon Coast Coho Salmon* meets the statutory requirements for a recovery plan and are proposing to adopt it as the ESA recovery plan for this threatened species. Section 4(f) of the ESA, as amended in 1988, requires that public notice and an opportunity for public review and comment be provided prior to final approval of a recovery plan. This notice solicits comments on this Proposed Plan.

Development of the Proposed Plan

For the purpose of recovery planning for the ESA-listed species of Pacific salmon and steelhead in Idaho, Oregon and Washington, NMFS designated five geographically based "recovery domains." The Oregon Coast Coho Salmon ESU spawning range is in the Oregon Coast domain. For each domain, NMFS appointed a team of scientists, nominated for their geographic and species expertise, to provide a solid scientific foundation for recovery plans. The Oregon and Northern California Coasts Technical Recovery Team (TRT) included scientists from NMFS, other Federal agencies, the state of Oregon, and the private sector.

A primary task for the Oregon and Northern California Coasts Technical Recovery Team was to recommend criteria for determining when the ESU should be considered viable (*i.e.*, when they are have a low risk of extinction over a 100-year period) and when the ESU would have a risk of extinction consistent with no longer needing the protections of the ESA. All Technical Recovery Teams used the same biological principles for developing their recommendations; these principles are described in the NOAA technical memorandum *Viable Salmonid Populations and the Recovery of Evolutionarily Significant Units* (McElhany *et al.*, 2000). Viable salmonid populations (VSP) are defined in terms of four parameters: abundance, productivity or growth rate, spatial structure, and diversity.

For this Proposed Plan, we collaborated with state, tribal and Federal scientists and resource managers and stakeholders to provide technical information that NMFS used to write the Proposed Plan which is built upon locally-led recovery efforts.

The Proposed Plan, including the recovery plan modules, is now available for public review and comment.

Contents of Proposed Plan

The Proposed Plan contains biological background and contextual information

that includes description of the ESU, the planning area, and the context of the plan's development. It presents relevant information on ESU structure, biological status and proposed biological viability criteria and threats criteria for delisting.

The Proposed Plan also describes specific information on the following: Current status of Oregon Coast Coho Salmon; limiting factors and threats for the full life cycle that contributed to the species decline; recovery strategies and actions addressing these limiting factors and threats; key information needs, and a proposed research, monitoring, and evaluation program for adaptive management. For recovery strategies and actions, Chapter 6 in the Proposed Plan includes proposed actions at the ESU and strata levels. Population level information will be posted on the recovery plan Web site (see below). The plan also describes how implementation, prioritization of actions, and adaptive management will proceed at the population, strata, and ESU scales. The Proposed Plan also summarizes time and costs (Chapter 7) required to implement recovery actions. In addition to the information in the Proposed Plan, readers are referred to the recovery plan Web site for more information on all these topics. (http://www.westcoast.fisheries.noaa.gov/protected_species/salmon_steelhead/recovery_planning_and_implementation/oregon_coast/oregon_coast_salmon_recovery_domain.html)

How NMFS and Others Expect To Use the Plan

With approval of the final Plan, we will commit to implement the actions in the Plan for which we have authority and funding; encourage other Federal and state agencies and tribal governments to implement recovery actions for which they have responsibility, authority and funding; and work cooperatively with the public and local stakeholders on implementation of other actions. We expect the Plan to guide us and other Federal agencies in evaluating Federal actions under ESA section 7, as well as in implementing other provisions of the ESA and other statutes. For example, the Plan will provide greater biological context for evaluating the effects that a proposed action may have on a species by providing delisting criteria, information on priority areas for addressing specific limiting factors, and information on how future populations within the ESU can tolerate varying levels of risk.

When we are considering a species for delisting, the agency will examine whether the section 4(a)(1) listing

factors have been addressed. To assist in this examination, we will use the delisting criteria described in Chapter 4 of the Plan, which includes both biological criteria and criteria addressing each of the ESA section 4(a)(1) listing factors, as well as any other relevant data and policy considerations.

We will also work with the Oregon Coast Coho Conservation Plan Implementation Team described in the Proposed Plan to develop implementation schedules that provide greater specificity for recovery actions to be implemented over three-to five-year periods. This Team will also help promote implementation of recovery actions and subsequent implementation schedules, and will track and report on implementation progress.

Conclusion

Section 4(f)(1)(B) of the ESA requires that recovery plans incorporate, to the maximum extent practicable, (1) objective, measurable criteria which, when met, would result in a determination that the species is no longer threatened or endangered; (2) site-specific management actions necessary to achieve the plan's goals; and (3) estimates of the time required and costs to implement recovery actions. We conclude that the Proposed Plan meets the requirements of ESA section 4(f) and are proposing to adopt it as the *ESA Recovery Plan for Oregon Coast Coho Salmon*.

Public Comments Solicited

We are soliciting written comments on the Proposed Plan. All substantive comments received by the date specified above will be considered and incorporated, as appropriate, prior to our decision whether to approve the plan. We will issue a news release announcing the adoption and availability of the final plan. We will post on the NMFS West Coast Region Web site (www.wcr.noaa.gov) a summary of, and responses to, the comments received, along with electronic copies of the final plan and its appendices.

BILLING CODE 3510-22-P

DEPARTMENT OF DEFENSE

Department of the Air Force

[Docket ID: USAF-2013-0032]

Proposed Collection; Comment Request

AGENCY: Department of the Air Force, DoD.

ACTION: Notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the Department of the Air Force announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by December 14, 2015.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Mail:* Department of Defense, Office of the Deputy Chief Management Officer, Directorate of Oversight and Compliance, Regulatory and Audit Matters Office, 9010 Defense Pentagon, Washington, DC 20301-9010.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

Any associated form(s) for this collection may be located within this same electronic docket and downloaded for review/testing. Follow the instructions at <http://www.regulations.gov> for submitting comments. Please submit comments on any given form identified by docket number, form number, and title.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to Separation and Retirement Division (DPSOR), Air Force Personnel Center, ATTN: Gail Weber, 550 C Street West, Suite 3, Joint Base San Antonio, TX 78150-4713 or call 210-565-2461.

SUPPLEMENTARY INFORMATION: *Title; Associated Form; and OMB Number:* Request for Approval of Foreign Government Employment of Air Force Members; OMB Control Number 0701-0134.

Needs and Uses: The information collection requirement is to obtain the information needed by the Secretary of the Air Force and Secretary of State on which to base a decision to approve/disapprove a request to work for a foreign government. This approval is specified by Title 37, United States Code, Section 908. This statute delegates such approval authority of Congress to the respective service secretaries and to the Secretary of State.

Affected Public: Individuals and households.

Annual Burden Hours: 10.

Number of Respondents: 10.

Responses per Respondent: 1.

Annual Responses: 10.

Average Burden per Response: 1 hour.

Frequency: On occasion.

Respondents are Air Force retired members and certain Reserve members who have gained jobs with a foreign government and who must obtain approval of the Secretary of the Air Force and Secretary of State to do so. Information, in the form of a letter, includes a detailed description of duty, name of employer, Social Security Number, and statements specifying whether or not the employee will be compensated; declaring if the employee will be required or plans to obtain foreign citizenship; declaring that the member will not be required to execute an oath of allegiance to the foreign government; verifying that the member understands that that retired pay equivalent to the amount received from the foreign government may be withheld if he or she accepts employment with a foreign government before receiving

approval. Reserve members only must include a request to be reassigned to Inactive Status List Reserve Section (Reserve Section Code RB). After verifying the status of the individual, the letter is forwarded to the Air Force Review Board for processing. If the signed letter is not included in the file, individuals reviewing the file cannot furnish the necessary information to the Secretary of the Air Force and Secretary of State on which a decision can be made. Requested information is necessary to maintain the integrity of the Request for Approval of Foreign Government Employment Program.

Dated: October 5, 2015.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.
